Eighteen ($18) Dollars,

for the payment of which well and truly to be made we bind ourselves, our heirs, executors and administrators, jointly and severally, by these presents.

Witness our hands and seals this 1st day of October A.D. 1910.

The condition of the above obligation is such that whereas the above bounden Anthony (Hoover
has this day executed and delivered to the said Missouri River Power Company a certain grant of right of way for the purpose of constructing, operating and maintaining thereon a power transmission line, and the said Missouri River Power Company has paid to the said Anthony (Hoover
the sum of One ($1) Dollar, the receipt whereof is hereby acknowledged, as the consideration for the said grant of right of way;

Now, if the said Anthony (Hoover
shall well and truly perform all the covenants and agreements in the said grant of right of way contained on the part of the said Anthony (Hoover
to be performed, then this obligation shall be void, otherwise to remain in full force and effect.

Sir,-

N.E. ¼ Sec. 30 Tp. 39 Rge. 22 West 4th Mer.

Referring to your application for the privilege of taking up a second homestead, I beg to inform you that an amendment to the Dominion Lands Act has been passed granting those settlers, who had obtained patent, or who had become entitled thereto on or before the 1st January, 1925, the right to make a second homestead entry on the usual homesteading terms.

Therefore, if you are the person who obtained patent for the quarter section above described, and provided this is the only land for which you have obtained homestead patent, you are entitled to another homestead, and the presentation and surrender of this letter to any Agent or Sub-Agent of Dominion Lands will be his authority for granting you homestead entry for any vacant and available quarter section of Dominion Lands on the usual terms, provided he is aware of no reason to the contrary.

I may further inform you that the holder of an unpatented pre-emption or purchased homestead entry will not be permitted to abandon the same in his own favour or in favour of a relative for the purpose of making entry for the land as a second homestead.

If you are indebted to this Department for seed grain or relief, the land taken under the authority of this letter will be subject to such indebtedness.

Sir,

I beg to acknowledge the receipt of your letter of the 7th instant, and in reply am to inform you that the Local Agent in Edmonton is being authorised to abandon the cancellation proceedings taken against your entry for the N. W. ¼ of S. 36, Tp. 55, West 4th, but you must proceed with the performance of the required duties this Spring, otherwise your entry cannot any longer be protected. You are entitled under the amendments to the Act to reside with your parents, if they occupy farm lands in the vicinity of your homestead, and at least six months residence in each year must be put in either with your parents or upon your own land, and the cultivation duties must, of course, be carried on.

Sir,

Copy for H. O., File :-408355.

I understand from the verbal statement which you made to me this afternoon that you resided for 10 months in the year 1900 either with your parents or upon your homestead, the N W ¼ 8 56 23 W 4 M, and that your residence began in the month of March, 1900. This being the case, you are now at liberty, if so disposed, to defer your second six months period of residence until the 1st September next. If you then go into actual personal occupation of your own homestead, or into residence with your parents in the vicinity, your entry will not be subject to attack. Your third year's performance of homestead duties can be begun in either March or September 1902. You understand, of course, that the cultivation of the homestead must be proceeded with each year.

The applicant for inspection is being informed how the case stands and if you will present this letter to the Postmaster he will accept it as his authority for removing the cancellation notice which has been posted in his office.

1896-22

The application for patent of John Spalding under the "Two Miles Radius" Clause shews that the cultivation has been done in an irregular manner as follows;-

Y. AR	85	86	87	88	89	90	91	92	93	94	95	96
BROKEN	Y	S	—	—	—	—	—	16	—	—	Y	
CROPPED		Y	Y	17	17	17	17	—	17	33	38	38

This is a case where the equitable requirements of the Dominion Lands Act have been fully complied with, but as there is a technical defect which prevents me from approving the application in the usual way, consistently with a strict ~~interpretation~~ literal interpretation of the law, I submit it with a recommendation that under the circumstances a special patent shall be allowed to issue in favour of Mr. Spalding.

The residence within the radius, and upon the homestead is satisfactory.

Replying to your letter of the 20th instant, Reference No. 406826 I have the honor to advise that the scrip notes referred to therein have been found.

I enclose, herewith, a statement of account in connection with the purchase of the above quarter section. From this statement it will be observed that when making the final payment Mr. Spalding was overcharged $ 81.13. The error arose from calculating interest upon an incorrect balance, $ 318.30, which had been noted in the Times-Sales Register and was obtained by inadvertently subtracting the interest instead of the principal of the first payment from the total purchase money $ 400.00. The proper balance was $ 241.70. A scrip note for $ 80.00 has been returned to the Administrator of the estate.

I enclose, herewith, the scrip notes in connection with the purchase, also, an amended list of scrip received during the week covered by the return, as well as an amended statement for the Accountant and the two last sheets of the return also amended.

When the Certificate for recommendation for patent is received by the Department please have same corrected to correct it in conformity with enclosed statement.

Sir,

Replying to your letter of the 26th ultimo, Reference 697, covering statement of account in connection with the S. The return of the money should have been made by Head Office. As it now stands the counterfoil of the receipt, No. 247 K, reads $336.00, the same amount as shown by your monthly statement, and in the cash summary for the month of April, and consequently your statement for that month shows $30.00 more than was actually remitted.

Macleod, Oct. 20th, 1896.

Mr. Oliver,

Dear Sir,

I wish to state to you a grievance I have and ask your aid and advice as to my best course to pursue. Four years ago I settled on unsurveyed land near the head of one of the coulees of Trout Creek in the Porcupine Hills. I built a house, stable, shed and bought seventy five head of cattle and lived on the place [illegible] until June 1895 when Mr. Wm. Thompson (brother of J. Thompson Pincher Creek inspector) employed by Jas. Pearce Inspector of Mines) Mr. W. Thompson was I understand paid a salary by the large cattle companies. He came to my place accompanied by Mr. A.P. Patrick all manager of the Gleichen ranche and a rough survey from Pincher Creek told me that I was on N.W. ¼ of 15.12.1 west of 5 Meridian and that was four weeks after I received a letter from Mr. Jas Pearce telling me that I was on a ¼ section reserved for mineral purposes and telling me to leave at once I took no notice of letter for some time finally I wrote and told him that there was a settler on my place, but that there was coulees on nearly every other ¼ section and in it which there was no one located on, and asked one of those and allow me to stay alone. He replied stating that if he allowed me to stay where I was that I would control the valley above me which is not so as there is lots of room on either side for cattle to pass up or down. I am but one of many cases where Mr. Pearce as worked against the small cattle owner in favour of the horse stockowner. In my case if I am compelled to leave the place I am on I will have to leave the valley altogether as it is the only place in the valley or where I can raise winter feed for my cattle.

Yours sincerely,

Dear Sir:-

I [illegible] ordering me to leave the N.W.¼ of 13-12-1 west 5th M. as it was suitable for and reserved for stock-watering purposes Now, do you not think this is unjust as I had been on said location for 3 years previous to your notice, had erected house, stable, sheds, corrals for use in wintering my cattle. True enough there is shelter and water on said quarter section; but there is just as good on several other ¼ sections close by on which there is no one located and which are of no use to anyone for any other purpose, whereas, on my place is about 60 acres of tillable land which can be irrigated and used to grow feed for winter use. If you would kindly inspect this place some time when you are through, you will see that a mistake has been made and an injustice done.

Yours sincerely,

what is worse, the fencing ends in a cut bank, so that when cattle strike the same, drifting in an easterly direction, probabilities are that they will break their necks falling over the cut bank and the pasturage of about 25,000 acres is cut off from its natural supply of water and shelter. If these settlers in the grazing district would keep their fences within reasonable bounds there might not be the objection to them; but squatters, often on the leaseholds of others, will, by fencing, control several hundred often thousand acres and if an attempt be made to restrain them with reason, the cry is raised of persecution by Government officials in the interest of larger stockmen or possibly out of pure whim, caprice or cussedness.

There is one thing noticable about the report of 1885 which strikes me rather forcibly, namely, that at that time it was stated, that nearly all the settlement was along the bottoms of streams. This held good at the time and those whose interests were bona fide, intended to devote their energies chiefly to the growth of cereals and vegetables, the demand for which exceeded the local production and the prices were good. It was then thought that the bottoms were the best points to conduct the experiment; experience has shown that such an idea was a mistaken one, as the benches owing to a more retentive subsoil require not more than one-half the moisture the bottoms do. All have now abandoned the idea of making a livelihood by such means except through irrigation. Those who since desired to squat on springs, proposed to make their livelihood wholly out of stock.

that distance of shelter. This matter has,however, been fully discussed in a special report to the Minister on the subject. As to re edy which has been proposed, it will be well to reserve all lands valuable for watering purposes,hay or shelter. This would be in the interest of the small stockmen as well as the large. For purposes of shelter most of the bottoms should be retained. This might be accomplished by requiring all the fencing to be opened between the 1st of December and the 1st of April,which would enable the holders of claims to do all the cropping required.

.....

.....

The present leases reserve to the Crown the right to grant settlement without the two years notice formerly required. If steps can be taken to protect the watering places and shelter for stock the stockmen have no objections to settlement,but the contrary and the right of settlement being accorded will probably prevent the blackmailing which the ranchemen claim has been practised on them in the past"

As the result of the representations made by the stockmen and on their behalf,the undersigned was detailed to select sites along the bottoms of streams,which it would be advisable to reserve for stockwatering and shelter purposes. This I did in the autumn of 1885. The district then inspected with a view to making these reservations,was necessarily very much smaller than that over which they now extend. Partly on account of surveys having been made and partly owing to a very considerable area being under lease for grazing purposes. If these reservations had not been made then,the present condition of affairs would have been similar to that now existing along the Waterton River,where during the winter season hardly any of that stream is accessible for stock. During the summer time stock can go to water in many places where they would not attempt to go in the winter season on account of snow drifting,etc.. Not only are these places desirable for watering purposes; but also for shelter. There is one point on the Waterton River where the fencing of two settlers in connection with the natural features wholly prevents access to the same for five continuous miles and what

415609

grazing lands and if properly handled, I trust there may be no conflict between the leaseholders or large stockmen and the squatters, who really are small stockmen, or intend to become such as soon as their means will enable them to. Few if any settling in a ranching country, having in view only the growth of grain and vegetables, the market for which will necessarily be limited, as the location being greatly removed from the large centers, other points cannot be competed with profitably

such being the case, does it not follow

that the policy of the Government should be framed chifly in the stock growing interest, not necessarily in the large holders as it will be found probably in the public to have the same amount of stock or so much as the country will support in the hands of several than of few holders." It is worthy of note, that at that date 1885, it was maintained that all the grazing districts should be thrown open for homestead entry and if such were done, it would all settle up rapidly. Experience has proven the reverse. Between the southerly limit of the Blood Indian Reserve and the same produced easterly and westerly and the northerlimit of Tp.28 and it is only within these limits (ter reservations) there are not nearly so many settlers there were ten years ago and those not in stock are going behind. In that portion of lying north of Sheep Creek and south of Tp.28, there are not more than 40 per cent of the settlers, were eight years ago. Those who rlied to make a livelihood by the growing of grain, soon came to grief.

"It will be found that nearly, if not all, the claimants to land are located near the river bottoms.

In answer to the question why they did not settle on the benches, the reply is, almost invariably that only the bottoms are suitable for cultivation. Not more than five per cent of the country is bottoms. Of these bottoms, two-fifths are too stony to admit of cultivation, which leaves according to the squatter's contention, not more than 3 per cent of the country fit for settlement. For the purpose of settling 3 per cent of the country, is it advisable to render 97 per cent comparatively speaking valueless? These bottoms always lie between cut banks and by running a fence between these cut banks, the whole bottom is enclosed, the river serving to enclose the remainder. It will frequently happen that half a mile of fencing will enclose several hundred of acres. In this way, comparatively few settlers will occupy many miles of the river. This cannot be better illustrated than to cite what has already occurred between Mt. Kipp and Slide Out on the Belly River. There are now 17 settlers and if one more settles and obtains what will be claimed - of which two-thirds is already fenced and the remainder shortly will be - 25 continuous miles of river will be rendered inaccessible for watering places and the bottoms for that

time when it is vital to prevent stock perishing. Those valleys contain from 500 up to 5.000 acres of invaluable pasture. As a matter of fact,it is not even necessary for him to fence,as by keeping one or two good dogs,the same end is attained. While such would be a very desirable state of affairs for the individual residing there,it is not in the public interest that it should be permitted. Knstead of there being an excess of such points reserved,it would have been decidedly in the interest of the cattle industry and the public generally if more such places,which are now settled upon, had been reserved long ago. It was foreseen at the start that there would be considerable agitation against the reservation of these favoured points by individuals and the friends of those who desired to obtain the same; but it was hoped that through the ejection of a few squatters and a firm attitude on the part of the department in the matter of maintaining these reservations,the clamour against them would soon cease and every one would begin to realise that it is as much in the interest of the small stockman as in that of the larger one,that measures of this nature should be adopted while the industry is yet in its infancy and while it is possible to protect vested interests in so doing and it is asserted,that if the squatters now in possession be ejected,the trouble will be ended, if not, the flood-gates for illegitimate settlement will be wide open and official encouragement will be given to a class of people whose ideas should at least not be encouraged. As having very considerable bearing on the subject and illustrating that the policy of these reservations is not a recent one,I shall quote extracts from my report for the year 1885:

"I have during the past two seasons devoted a good deal of attention to the subject of grazing -

could not be called over sanguine. As to the second statement usually made, namely, that the applicant will see that free access is given stock to water, on the land he desires; this could not be entertained for a moment. It is not in human nature to stand by and see range cattle rubbing down your fences without taking measures to prevent it and that means chiefly running them off with dogs and in one run of a mile or two more flesh is lost than can be put on in two weeks. Frequently, cattle are absolutely ruined from the effects of dogging them. Of course, if no fences were put up by these squatters and no dogs kept, no great injury might be done to the cattle by reason of a squatter residing near a spring.

As to the complaint respecting excessive areas reserved. Range cattle will not go near any place where dogs are kept and every settler keeps one or more. Another thing is, that during hot weather it may be observed that after drinking, they invariably lie down and as it is the habit of range stock to graze in considerable bands from 100 up to several thousand, every considerable area is [illegible]ed to allow cattle free access to the water; otherwise, the s[illegible] nt the weaker ones from getting at it and animals will pre- any considerable distance away from water dur[illegible]t ther, the necessity for larger reservations becomes stri[illegible] parent, as a small area would soon be completely eaten he quality of the cattle would thus deteriorate in- improving. The charge is frequently made that the area of these reservations is excessive and that there are many more of them than necessity calls for, also that many of them have no water at all. Of course, any one desiring to settle would naturally like to do so on a spring or open stream and when a request is made, it is invariably accompanied by the statement, that there is no stockwatering at that point, or that, if he is allowed to settle there, he will take good care that there is plenty of access for stock to water. Regarding the first assertion, it is in 95 per cent of cases erroneous; but even if it were true, it would not necessarily follow that the reservation should not be maintained, for though the intending settler personally would not prevent stock travelling, grazing and watering as was desirable, he might be succeeded in a ve-ry-short time by one who would do the reverse and it is anticipated that within the next decade, there will be four times the number of stock in the grazing there are to-day, and these reservations have been made with that end in view, so that although there might be an excess of them at the present time such would not be the case a few years from now, so that if even the stock en, large or small in any neighbourhood petitioned to have the number or area of these reservations reduced, it might not be good policy to grant their petition. Through the construction of irrigation works and the raising of winter fodder thereby, and realising that the capacity of our ranges is only limited to the extent to which the winter fodder is available, he who predicts an increase of our ranch stock by four times its present number within the next ten years, could

the Stock interest is, that until the report of such a Commission is obtained and a decision in the matter is arrived at by the Government, no more squatting be permitted on reservations approved of or recommended, on any unsurveyed lands in the Stoci Grazing District. If after the report of such Commission of Inquiry, the Government should decide to maintain its action and policy of the past, then squatters who conflict with the public interest, as it is contended is the case in this instance, must go at once.

none,and if composed of representatives from both factions, no combined report would be obtained. In appointing a commission of men not familiar with the subject,the danger would be incurred of a report not warranted by facts,and much harm would ensue.However,if the Commission was composed of men who knew how to examine witnesses and well weigh the evidence,no doubt a report or recommendation in accordance with same would be forthcoming. Even if it were not,the evidence obtained would be of value in educating the public as to the merits of the controversy. I have been induced to draw attention to such a commission,because it would appear,that of late a violent attack is being made on the policy of the department in the past regarding the protection of the stock industry.

The closing paragraph of the letter of Mr.Oliver M.P. of the 29th ultimo regarding Mr.Fred.Burton's case,conveys the idea,that he is fully persuaded,that a gross injustice is being done not only the public interest, but also to deserving individuals. This is alluded to,not for the purpose of commenting adversely on that gentleman's conclusions but rather to point outthat it is possible,that in his very laudable desire to protect the struggling and [illegible] settler and small stockman against the actions of "apparently irresponsible and impossible officials",he has overlooked what may be urged on the other side of the question,a very large one. Now,Mr.Oliver M.P.is undoubtedly but one of a large number of men who honestly and thoroughly believe that the actions of Government officials are as black as painted and the results of their actions most deplorable both to public and private interests. If a Commission as indicated would disabuse their minds of such ideas, it might be worth the cost and in the interval,all that is asked on behalf of the

41560

considerable area of the choicest winter pasture, stock watering and shelter, many times too great to be given to any one owning only 75 heads of stock or five times that number.

I have prepared for my Annual Report a fairly full one on the subject of Stock-watering and Shelter Reservations and reservations to give access to shelter, water and grazing and enclose herewith a copy of the same.

You will probably remember that some years ago, I think, in 1888 or 1889, there was a memorial from not only the stock, but general interests of Southern Alberta, initiated by D.W.Davis Esq M.P., to the Minister of the Interior, asking to have a Commission appointed to look into the conditions prevailing and make such recommendations therein as would best promote the general interests of the country. It was then not considered advisable to meet that request. This Commission it was anticipated would be composed of disinterested men who were familiar with the conditions existing and it was pointed out at the time that by reason of permission of indiscriminate squatting on the grazing areas of the Western States, which was inevitably followed by eating out, the stock industry had been seriously injured in many districts totally mutilated and the country had not been settled. That its ultimate stage was not nearly as valuable as the first in resource or value and it was thought that men, who had had extensive experience of this feature, might be obtained for the Commission and if not, at least, their evidence might be forthcoming. It was pointed out, that if men were put on such Commission from the districts affected, they would view everything from their personal standpoint. A stockman would insist that nothing be allowed to stand in the way of his views and the opposite faction to the stock interest, would not be able to see things except from their standpoint. A commission composed of either, would be worse than none

fully brought out and if any hardship had been inflicted on him, if a feasible remedy could be applied, not inconsistent with public interests, it would no doubt have been given.

Even supposing that Burton had owned 75 head of cattle when the reservation was made and had decided to remain there (whereas he had sold his cattle and announced his intention of abandoning) it would then have been a matter of careful consideration whether he should be removed, before deciding to recommend the land for reservation. But as the result of my inspection last July, I believe, even though Burton had had the stock mentioned and intended remaining if permitted, no disinterested party conversant with the stock industry, particularly winter grazing in this district, would have hesitated for one instant to recommend the reservation in question be made. What figure does the granting of special facilities for running 75 head of cattle and a few dollars in buildings count (there is nothing to show what the value of such buildings were, probably not $150 or even one third of that amount) as against the prevention of free access to water, shelter and winter pasturage of several hundred head? Had Burton been a party who did not know how essential to the general stock interest such places as he squatted on were, ones sympathy might be extended to him on account of his unfortunate mistake. But he knew perfectly well at the time he squatted there, that it was not the policy of the Government to countenance such. Quaill's case is one on all fours with his and this has been before the public now since 1888 and is located within two miles of this claim of Burtons. By Burton moving back a reasonable distance from the his claim, his stock will have equally as good a chance of grazing over the public domain as that enjoyed by others. By acceding to his wishes, he would be given exclusive right to graze over a very consi-

a large area of fine winter grazing and further,it is in close proximity to a very large amount of the finest timber and scrub cattle shelter to be found in the whole winter grazing district of this country and the natural watering place of hundreds of cattle,which at times,in order to preserve them from death,it is absolutely essential that such shelter should be available. If fencing were permitted in a valley like this,the loss of cattle being hung up on such fences when drifting and becoming stalled,would be incredible to those who have not a knowledge of or experience in such matters.

On the 6th June last I wrote Burton and enclose a copy of my letter for convenience, which,however,was sent you at the time. It will be observed that there was nothing to prevent Burton selling and removing his improvements. He had nothing else to dispose of. The value of said improvements would bring at least half their cost if sold for removal. Nothing was heard from Burton for more than a year and it was supposed that he had disposed of his buillings and abandoned the claim. As a matter of fact,I understand that he for some months subsequent was not living on it,in fact,up to last June had resided very little thereon and had announced to several that he had abandoned the claim.

On the 20th June last he wrote me (copy enclosed) . As I purposed visiting this place,which I did on the 5th July, I did not reply until I had done so. I replied on the 15th of that month,copy enclosed. At the date of my visit,I understood he was not residing there, though of that I am not positive.

It is to be regretted that Mr.Burton did not send in the evidence asked for in mine of the 18th July,and he done so, the facts bearing on his grievance would have been fully

were necessary and after the first snow,under the crest of the hills facing the south and east and in the narrow gulches and ravines in the Porcupine Hills,the drifts from snow are such,that they cannot be readily crossed and it is exactly that condition that renders it absolutely vital that such places as Burtons has squatted upon,should be reserved for the purpose of giving access to the drainage areas above,as it is only through and over such reservations that such access is possible. There are few,if any,more competent to make such inspection and locate the necessary reservations than Mr.W.A.Thompson and the insinuation of Mr. Burton that because he was paid by the stockman,he did not report the true condition of affairs,is one that would likely only be made by an individual who would be susceptible to dishonest influences.

Mr.Thompson reported:".....With regard to squatters there are three cases,Fred.Burton on the N.E.t.of 13-12-1 w.5th M.. Alex.Bell on N.W.t.6-11-28w.4th M.and S.Carter on S.E.t. 28-10-29 west 4th M.."

".....Burton informed me that he had sold his stock and was leaving the place; but wished to sell his right to the land and improvements before leaving. I would recommend that he be allowed to sell the buildings with the understanding that they are to be removed; but I strongly recommend that no one be allowed to squat or settle on the land after Burton leaves,as it is a most important winter water location consisting of a number of springs in the bed of the creek which keep the water open during the most severe weather and really form the source of this branch of Trout Creek."

I have since in July last visited this place and in addition to all that Mr.Thompson reports in favour of this reservation,I would add,that it forms the key to access to a

In reply to yours of the 6th instant Ref.No. 408.403 with enclosures re Mr.Fred Burton's claim to the N.E.t.of 13 - 12 - 1 west 5th Meridian,requesting me to report thereon,I would state.

Mr.W.A.Thompson was selected by the department to locate certain stock-watering and shelter reservations areas which it was claimed should be reserved for the above purposes and also especially for access to valuable grazing areas during the winter. The reservations he reported on me,were in turn reported on by me to the department. Some of these recommended by him were eventually reserved by Order-in-Council. Some were not. The case under discussion came under the former category. That the stockmen paid for such services was because the department had not at the time an official available when and it was desired the necessary inspection should be made and there no funds on hand to pay for such services. I may mention,that while Acting Homestead Inspector the winter previously,Mr.W.A.Thompson had been instructed to make this inspection and it might then have been done without expense to the stockmen; but he had to abandon it on account of the snow. To locate nearly all,more or less track-surveys were

allowed to remain on the land but he feared he could not do so, as it would practically mean that he would control the whole valley above him; and that in order to ascertain all the facts in connection with his claim he sent Mr. Barton a blank form upon which to enter certain information with respect to his length of residence, the value of his improvements, &c. but the information asked for was not supplied by Mr. Burton. Mr. Pearce added that he had pointed out to Mr. Burton that his knowledge of the stock interests in the district would enable him to see that if persons were permitted to settle wherever they liked in a broken country like the Porcupine Hills, half a dozen settlers would in many cases ruin a township for general grazing purposes.

I may point out that the ruinous effect of permitting operations like Mr. Burton's to go on unchecked has been illustrated in the experience of the Western American States, and it is the duty of the Government to profit by that experience and to prevent, as far as may be possible, similar results arising in Canada. Mr. Pearce further stated that in July last he visited the place and found that the land squatted upon by Mr. Burton formed the only means by which access could be gained to a large area of fine winter grazing land, and that it was in close proximity to a large quantity of the finest timber and scrub for cattle shelter to be found in the whole of the winter grazing district; that if fencing in the valley were to be permitted, the loss which would be sustained through cattle becoming stalled when drifting, would be incredible to those who have not a knowledge of or experience in such matters; that after having visited the land he wrote to Mr. Burton advising him that he had done so and stated that he would have liked very much to comply with his wish to be allowed

Hon. Minister of the Interior,

Ottawa.

Dear Sir,-

Replying to yours of the 14th inst. referring to Burton of Lynton Alberta, it is not made clear as to whether Mr. Burton settled before the reservation was made or afterwards. If Mr. Burton settled on the reservation already made and known to be made for stock and ring purposes I do not wish to protect him, but if he settled before the reserve was granted I consider that his rights were prior and should be respected. Admitting for the sake of argument, the public necessity of the reservation of this particular locality I consider that a fair value should be put upon Mr. Burton's time and improvements and that a fair compensation be offered him should the public interests require his removal. The point in this case it seems to me is whether Mr. Burton or the reserve was there first and the principle is that prior right, a failure to acknowledge which, in the past, has been the great mistake or rather crime of the administration of the Interior Department and which has resulted in the slow settlement of this country.

Respectfully submitted,

Mr. Oliver in his letter of the 31st of December last on this file, stated that if Mr. Burton squatted on the land after the reservation was made and known to be a reservation, he did not wish to protect him, but if he squatted before the reserve was made he considered that his rights were prior and should be respected; that if it were found that it was a public necessity to maintain the reserve he considered that a fair value should be put upon Mr. Burton's time and improvements; and that a fair compensation should be offered him should the public interests require his removal.

Ottawa, 23rd January, 1907.

Mr. Burgess,

In your memorandum to the Minister dated [illegible] instant in relation to Mr. Carter having applied for a stock watering reserve or shelter that Mr. Oliver also complained of the action taken by the Department in connection with the case of Mr. Fred Burton, who had squatted on land reserved for stock watering and shelter purposes; that a communication from the Acting Minister to Mr. Frank Oliver, dated the 1st of December or the 1st showed that the Acting Minister decided that the reserve should be maintained. The Minister understood Burton did not have an entry or apply for one, and neither the land was unsurveyed.

I am informed by Mr. Burton that the Township is not surveyed [redacted]; that the 4th Meridian or the East line was run as a correction survey by Myles D.L.S. on the 14th of June, 1906.

Mr. Burton was on the land when it was selected by Homestead Inspector Thompson for stock watering purposes and shelter, and no application appears to have been made by Mr. Burton for an entry for this land.

fences when drifting and becoming stalled would be incredible to those who have not a knowledge of or experience in such matters.

Mr. Oliver in his letter of the 31st of December last on this file stated that if Mr. Burton squatted on the land after the reservation was made and known to be a reservation he did not wish to protect him, but if he squatted before the reserve was made he considered that his rights were prior and should be respected; that if it were found it was a public necessity to maintain the reserve he considered that a fair value should be put upon Mr. Burton's time and improvements; and that a fair compensation should be offered him should the public interests require his removal.

I have submitted to you a report in connection with the whole matter of stock watering reserves, and in view of what I have therein stated I consider that some means should be taken to induce Mr. Burton to leave his present location. The suggestion made by Mr. Oliver that he should receive a fair compensation would be a means of carrying this out, but there is no appropriation made by Parliament from which to pay him money. An offer might be made to Mr. Burton to select land elsewhere for which he could be given entry without payment of the usual fee, but I am afraid this would not satisfy him without a money compensation for the removal of what buildings he may have on the ground. Mr. Pearce reported

and comprises a portion of an odd numbered Section, an entry could not have been granted.

At the time Mr. Thompson selected the reserve he reported that Mr. Fred Burton was living on the land; that Mr. purton informed him that he had sold his stock and was leaving the place, but wished to sell his right to the land and improvements before leaving; that he would recommend Mr. Burton be allowed tosell the buildings with the understanding that they were to be removed; and that he strongly advised that no one be allowed to squat or settle on the land after Mr. Burton left as it was a most important watering location, consisting of a number of springs in the bed of the creek which kept the water open during the most severe weather and really formed the source of a branch of Trout Creek.

Mr. Pearce inspected the land in July, 1896, and stated that he concurredin the report made by Mr. Thompson; that the land also formed the key to access to a large area of fine winter grazing and it was in close proximity to a very large quantity of the finest timber and scrub for sheltering cattle to be found in the whole Winter grazing district; that the shelter at times in order to preserve cattle from death was absolutely essential; that the land was also the natural watering place of hundreds of cattle; and that if fencing were permitted in the valley in which the land in question is situated the loss of cattle which would be hung up on fences

Memorandum:

In my memorandum to you of the 7th ultimo in relation to Mr. Carter having squatted upon a stock watering reserve I stated that Mr. Oliver, M.P., had also complained of the action taken by the Department in connection with the case of Mr. Fred Burton who had squatted on land reserved for stock watering and shelter purposes; and that the communication from the Acting Minister to Mr. Oliver dated the 15th of December on this file stated that the Acting Minister decided that the reserve should be maintained. You enquired ~~whether~~ further Mr. Burton did not have an entry or apply for one, and whether the land was unsurveyed.

The Township is not subdivided into Sections, but the Eastern boundary thereof being the 5th Meridian has been surveyed, and posts have been planted at each of the Section corners along the Meridian.

Mr. Burton was on the land when it was selected by Mr. Homestead Inspector Thompson for stock watering purposes and shelter, but no application appears to have been made by him for an entry for this land. Even if an application had been made, as the land is unsurveyed

Sir,

I beg to enclose a letter from Fred. Purton, of Lyndon, Alberta, setting forth his claim for a homestead entry, and stating how he has been debarred from it by the action of the officials of the department.

Mr. Lyndon's case has been before the department since last fall, and I would respectfully urge that it be given early and favourable consideration.

This is another of those interminable water reserve cases.

Let Mr Burton have the entry.

Memorandum:

Mr. Oliver, M.P., has written to you with reference to the claim of Mr. Fred. Burton, a squatter on the North East quarter of Section 13, Township 12, Range 1, West of the 5th Meridian.

The quarter Section in question, in accordance with the recommendation made by Mr. Pearce, was reserved by Order in Council for stock watering purposes. At the time the reserve was selected Mr. Burton was living on the ground.

This case is similar to that of Mr. Carter, and you decided in the latter case that entry could be granted. In Mr. Carter's case, however, Mr. Oliver stated that Mr. John R. Craig a rancher, stated that he had no objection to Mr. Carter acquiring the land upon which he had squatted; and that Mr. Carter informed him that the land which he claimed would not block the mouth of the valley as alleged by Mr. Pearce, even if it were fenced in.

Mr. Burton in his letter to Mr. Oliver of the 15th of March last stated that if he were to fence the quarter Section it would not nearly block the valley, and that

that there was open water in the valley on which no one had located. I annex hereto a plan showing the position of the North East quarter of Section 13, and also other lands in the adjoining Township on Trout Creek, which have been reserved for stock watering.

It appears to me that there is sufficient water frontage on the creek for cattle without including the North East quarter of Section 13. I find, however, that by an Order in Council dated the 10th of January, 1894, homestead entries for portions of Dominion Land Sections traversed by rivers and large streams in Manitoba and the North West Territories, and more particularly in the country lying along the foot-hills of the Rocky Mountains, West of the 4th Meridian, are to be confined to one side of the river or stream where it is of such size as to warrant its being surveyed, or where the water frontage is considered particularly valuable.

It might be well to offer Mr. Burton the privilege of selecting 160 acres either North or South of Trout Creek.

Respectfully submitted,

Deputy Minister.

where the water frontage is considered particularly valuable, it will be necessary for Mr. Burton to confine himself to one side of Trout Creek. Dear Sir,

The application of Mr. Frederick Burton to homestead a stock-watering reservation, about which you have written to the Minister of the Interior, has been looked into, and the conclusion come to that Mr. Burton may be allowed to make homestead entry for 160 acres on either the north or the south side of Trout Creek, which crosses the North-East quarter of Section 13, Township 14, Range 1, West of the 4th Meridian, the quarter section he applies for.

It is observed that Mr. Burton's buildings are located on the north side of the Creek; and as it is provided by the Order in Council of the 16th of January, 1894, that homestead entries for portions of Dominion Lands traversed by rivers and large streams in Manitoba and the Territories, shall be confined to one side of the river or stream,

See your reference 408430; During a recent visit to that portion of the country I made an inspection of Mr. Burton's claim and if it should be decided to grant him entry I would suggest that Legal Sub Division I6, and that portion of I5 hereinafter described be withdrawn from the stock watering reservations and grant him in addition Legal Sub Division I and 2 of 24 and that portion of Legal Sub Division hereinafter described making in all I60 acres, confining him largely, if not fully, to one bank of the stream which is particularly desirable and reserving reasonable access for stock to graze up the valley which is of the greatest importance to that industry. It covers all of Mr. Burton's improvements and fencing and gives him as much irrigable land as if he were granted the north half of the north east quarter of section I3 and the south half of the south east quarter of section 24. The entry recommended would be described as follows ; Legal sub division I6 of section I3, Tp I2, Rge I, west of the 5th and that portion of legal sub division I5 described as follows; Commencing at the N. Sir,

Re yours of the 1st inst Ref 408430. By the decision of the Deputy Minister Mr Burton was to be granted that portion of the N E 1/4 of 13 lying North of Trout Creek, or legal subdivisions 15 & 16 of said section I am not certain which, and the S 1/2 of the S E 1/4 of S 24. After visiting the claim I suggested a modification of the decision be arrived at which change did not effect Mr Burton adversely as the addition in S 24 granted him is of more value for agricultiral purposes than the portion taken from legal subdivision 15 of S 13 . I personally inspected the land and know whereof I assert. There is a large valley extending nearly due West being portions of Sections 10, 11,12, W 1/2 of 13,14 and 16 of T 12 R 1 W5t which is very valuable for pasturage and shelter there being considerable brush and timber . In stormy weather cattle drift in there by the hundreds If the N E 1/4 of 13 were fenced as no doubt it would be by Mr Burton if he obtains entry thereto, access to this valley during that portion of the year when it is of chief value to stock interests would be completely but off therefore under no conside-

To the Secretary of

ration should ne be granted any part of S 13 lying South of Trout Creek. Up the valley of Trout Creek itself there is considerable pasturage and that was the reason why I suggested that entry be granted only to 1/2 of legal subdivision 15 of S 13 and in lieu thereof the same area of legal subdivision 3 in S 24.- Mr Burton in his letter speaks of that he would take what is North of Trout Creek of the N E 1/4 with the balance on Sec 14 , I think he surely must mean 24. If in place of legal subdivision 1 of S 24 he would prefer to take legal subdivision 7 I see no objection to that but I think it is necessary to the interests of the settler above him namely Honey, who is on section 23 that the entries regarding legal subdivision 15 of S 13 and of legal subdivision 3 of S 24 should be granted as suggested by me.

I might point out that at the time Mr Burton squatted on this land the eastern limit of that section was not run and under millionaire the department it would have to be sufficiently surveyed to enable the land to be granted if the land were open for entry . This being an Ind section it was not open for entry and therefore Mr Burton is very liberally treated in according him any right to any portion of it. A reference to the township map will show that portion of his holdings is on S 24 and his buildings are lying very close to the Southern limit of that sect. If the topography as shown by the township map is at all accurate it would appear that the legal subdivisions 2 and 7 of S 24 are of more value for agricultural purposes as the average land in that District.

I must apologize for the very stupid slip he made in re-

It will be observed that the South 1/2 of the N W 1/4 of

The Commissioner,
Dominion Lands -

Re S.E.¼ 24--38--28 W.4.

Dear Sir,

I am living on the above land having entered for it in October 1893. At the time I built my house I thought this lot had a lake frontage but I have since discovered that it has not. I am writing to ask if I can purchase that portion of the S.W.¼ 24 which runs between my house and the lake. A man named Spetz entered for the S.W.¼, but has left here, having sold his improvements to a Mr.Lawrence who is now on the land. I do not think he has yet made any application for the land so am writing my request before he does so. If he chose to do so, he could completely shut me off from the water so I am anxious to secure this bit of land if possible, so as to have free access to the lake. It is only about 1½ acres, and is of no agricultural value whatever. I enclose a map showing my house on S.E.24 and the piece of S.W.24 in question which I have marked in red with a cross you will see that the S.W.¼ has over ½ a mile of water front so it would not spoil the lot by cutting off the piece I want. Mr.Lawrence and I are very good friends and he says he will not fence me off from the water, but he may leave, and his successor might do so, and as it is my intention to remain in the country I want to guard against future contingencies. Awaiting the favor of your reply

I am, Sir,
Your obedient servant,
Sgd. M.J.Herbert.

Dominion Lands at Red Deer) to sell this legal subdivision to a Mr. Herbert.

According to Mr. Lawrence's application for homestead patent for the said S.W.¼ of Section 34, Township 24, Range 4. West of the 5th Meridian, which was made on the 6th July, 1891, he resided continuously on his homestead from May, 1887, to the date of such application, but as he did not enter for the said land until the 2?th February, 1888, although the survey of this township was approved and confirmed on the 18th June, 1884, he is not eligible, under the Dominion Lands Act, to make a second homestead entry, and I recommend that he be advised accordingly.

Respectfully submitted,

Mr. H. F. Lawrence, of Pine lake, N.W.T., writes to the Minister under date the 13th ultimo, stating that he located on the S.W.¼ of Section 34, Township 24, Range 4, West of the 5th Meridian, in the Spring of 1885, and resided continuously on the land from that date until the Autumn of 1891. He did not, however, make entry for the quarter-section until the 27th February, 1888, this fact, he alleges, being the only obstacle in the way of his procuring a second homestead entry, which privilege he now desires to be granted to him. He states, further, that he is a married man with a young family, and that his reasons for changing his location are that hay became very scarce for his cattle, and year after year the crop of green feed he endeavoured to grow was either frozen down or baled out; that he never succeeded in raising one crop out of five steady attempts; that he had over thirty-five acres under attempted cultivation and on that score alone roughly estimate his loss at less than $800 or $1000. He concludes by saying that he has 150 head of stock, and has erected a good house on the S.W.¼ of Section 24, Township 36, Range 25, West of the 4th Meridian.

This latter quarter-section, which it would appear Mr. Lawrence desires to obtain as a second homestead, the Commissioner permitted him to purchase less the S.E.¼ of Legal Subdivision 3, it being the Commissioner's intention (as is shown by a copy which has been received here of a letter dated the 16th ultimo addressed by Mr. Burpe to the Agent of Dominion

Sir,

Referring further to your letter of the 13th February last, asking for permission to make a second homestead entry, I am directed to inform you that according to your application for homestead patent for the South West quarter of Section 34, Township 24, Range 4, West of the 5th Meridian, which was made on the 6th of July, 1891, you would appear to have resided continuously on your homestead from May, 1887, to the date of such application, but as you did not enter for the land until the 27th February, 1888, although the survey of this Township was approved and confirmed on the 18th June, 1884, you are not eligible under the Dominion Lands Act to make a second homestead entry.

As for the South West Quarter of Section 24, Township 36, Range 25, West of the 4th Meridian, I am directed to say that this land still stands in our books as the homestead of William Emil Spetz, but he would appear to have abandoned the place after selling his improvements to you. There can be no objection to allowing you to purchase the quarter-section in question at the regulation price, but as you have been already informed by the Commissioner on the 27th January last, Mr. Herbert has been permitted to purchase a small part of the land, being about four acres of legal subdivision 3, in order to give him access to the Lake, and this portion will therefore have to be excluded from the sale to you.

Dear Sir:-

I beg to enclose a letter received from H. Frank Lawrence of Pine Lake Alberta in which he speaks of his desire to second homestead the land upon which he is settled and also to purchase the adjoining piece, in order to give him a legal outlet from the land upon which he is.
It appears that he had a homestead in the Calgary District which he was compelled through failure of crops to abandon, selling his improvements for a trifle. If he made a formal abandonment of his first Homestead, would he not then be in a position to take another even though he did receive consider ation for his improvements ?
He did not sell his homestead right because it was not some thing that could be sold. What ever transactions there were between himself and the person to whom he sold his improvements were out side the provision of the Lands Act, and there-

Ref. 408443.

Memorandum.

Re letter from Mr. Frank Oliver, M.P., respecting Mr. H.F. Lawrence's application for a second homestead and to purchase certain land.

Mr. Lawrence entered for his first homestead, the S.W.¼ 24--24--4,W.5, on the 27th February, 1888, and resided thereon from May, 1887, to the date of his application for patent, namely, the 6th July, 1891, and is not, therefore, entitled to make a second homestead entry, not having completed his settlement duties prior to the 2nd June, 1889. Mr. Oliver asks, "If he made a formal abandonment of his first homestead, "would he not then be in a position to take another even though "he did receive consideration for his improvements?" The fact of the case, however, is that Mr. Lawrence, after earning his right thereto, assigned his homestead to Mr. Wycliffe Goodwin, to whom a patent issued therefor on the 11th September, 1891. Mr. Lawrence states that in the event of the N.W.¼ of Section 24 (which was reserved for entry for one of Mr. M.J. Herbert's sons until he attained the required age of eighteen years, fyle 38604) being homesteaded he will be, owing to the lake frontage, entirely closed in on the S.W.¼ of the same section, which latter land if he cannot homestead he will have to purchase, and asks that he be provided with legal means of exit [redacted]. Of this fractional S.W.¼, containing forty acres, four acres have recently been sold to Mr. M.J. Herbert to give him access to the lake, but there does not appear to be any objection to selling Mr. Lawrence the remainder, and to reserve from the N.W.¼ a strip of land for a roadway, as contained in the Surveyor General's description approved

Jas. A. Smart, Esq.,
Deputy Minister of the Interior.

approved on the 3rd September, 1895, (fyle 382281). This roadway was originally applied for by W. E. Spetz, who then held homestead entry for the said S.W.¼, but his request was not granted bohh because he was refusing the settlers on the eastern shore of the lake theuse of his lake frontage as a roadway, and also as it was suggested by Mr. Pearce that it was a case which came within the jurisdiction of the North-West Legislative Assembly. I think, ~~therefore~~, that under the present circumstances, as no entry has been granted for the N.W.¼, the Minister might order the reservation of a roadway as described in the Surveyor-General's draft already referred to. I have had shown coloured red on the township plan hereunder the roadway in question through part of the N.W.¼ of Section 24.

Sir,

With reference to your letter of the 16th instant, No. 364146, Ref. 250960, addressed to Mr. M. J. Herbert, a copy of which is referred here, in the matter of his application to be permitted to purchase a portion of the South West quarter of Section 24, Township 36, Range 25 West of the 4th Meridian, I beg to say that this quarter section still stands in the books here as the homestead of William Emil Spetz. If this entry has been cancelled the cancellation papers have never reached the Department, and therefore nothing can be done in regard to the application of Mr. Herbert to purchase a certain portion of the quarter section.

I am, Sir,

Your obedient servant,

Assistant Secretary.

Sir

In reply to your letter dated 30th July I beg to say that as the Lawrence is living on the land in question I do not think it would be right of me to apply for cancellation. I saw Mr Lawrence today and told him that I had applied to you for leave to purchase the small portion of the lot in question which shuts me off from the hills. If you may please

annoyed and said he thought it was
a very ungentlemanly thing [redacted] to
do, He said that he had told one
that he would not fence [redacted] one off
from the water and that I ought
to have been satisfied with that
assurance, but he would not say that
in the event of his buying the land he
would sell me that portion, and said
that I had no right to try & coerce him
to do so. He said, "it was my not
his fault that I built my house [illegible]
I could not have access to the water."
I think he would be quite willing that
I should have access to the water, only,
it must be at his pleasure, and
on sufferance. It will be a very
unpleasant position for me to be in

I am to have access to the lake only so long as he chooses to [illegible] and he can [illegible] off at any moment.

I sincerely hope that if he applies for homestead entry on [illegible] I shall be allowed to purchase the small strip which shuts me off from the lake, for after what he said to me to-day I feel sure I must not expect any favor from him.

Yours truly,

W. L. Chamberlain.

P.S. I have spent nearly $1,000 in improvements on my homestead and feel very anxious about this matter.

Sir,

Referring to my letter addressed to W.J.Herbert on the 30th ultimo, a copy of which was forwarded to you, respecting his application to purchase a portion of the S.½ of Section 21--7--5 W.4, I am to hand you the enclosed copy of a letter recently received from Mr. Herbert by which you will see that he states he has come on to the occupation of the land, which according to our records appears to be the homestead of W.F.Seitz. Will you please communicate at once with Mr. Herbert and ascertain in what manner he is occupying the land, and what claim he has, if any, thereto. The application made by Mr. Herbert seems to be a reasonable one, and the Commissioner wishes to be placed in full possession of the facts so that the matter may receive favourable consideration. Please attend to this matter without delay.

31st December, 1897.

Dear Sir,

I regret to find that, by oversight, your letter of the 29th June last, enclosing one from Mr. H. Frank Lawrence, of Pine Lake, Alberta, was not answered at the time.

The records of the Department show that Mr. Lawrence entered for his first homestead, the S.W.¼ of Section 34, Township 24, Range 4, West of the 5th Meridian, on the 27th February, 1888, and that he resided thereon from May, 1887, to the date of his application for patent, namely, the 6th July, 1891, and he is not, therefore, entitled to make a second homestead entry. Mr. Lawrence, after earning his right thereto, assigned his homestead to Mr. Wycliffe Goodwin, to whom a patent issued therefor on the 11th September, 1891. A road allowance one chain in width has been reserved through the south-west corner of the N.W.¼ of Section 24, Township 36, Range 25, West of the 4th Meridian, beginning at a point on the

Mr. M. J. Herbert has been permitted to purchase all that portion of the S.E.¼ of Legal Subdivision 3 of the said section 24, containing four acres, leaving eighty-six acres of the S.W.¼ of this section vacant, and if available according to the records of the Agent of Dominion Lands at Red Deer, and Mr. Lawrence desires to purchase it at the current rate of $3 per acre and on the usual terms of payment, he will be permitted to do so; or, if he prefers, he will be allowed to purchase it at $1 per acre, the sale, however, being subject to the performance of the conditions as to residence on and cultivation of the land, prescribed by the Dominion Lands Act in the case of an ordinary homesteader.

Mr. Goodeve,

Mr. Herbert now advises us that he is prepared to purchase at $1.00 per acre, subject to ordinary homestead conditions, the portion of the S.W.1/4 of 24,36, 13, W.4th, remaining available, but before doing so he desires to be informed as to what provision has been made for getting in or out of the Part x-section. If you will refer to your memorandum of the 6th July last, which I subsequently approved, you will observe that the remedy suggested was to reserve a roadway out of the adjoining North West Quarter. Ref. 408443.

Dear Sir.

I regret to find that, by oversight, your letter of the 29th June last, enclosing one from Mr. H. Frank Lawrence, of Pine Lake, Alberta, was not answered at the time.

The records of the Department show that Mr. Lawrence entered for his first homestead, the S.W.¼ of Section 34, Township 24, Range 4, West of the 5th Meridian, on the 27th February, 1888, and that he resided thereon from May, 1887, to the date of his application for patent, namely, the 6th July, 1891, and he is not, therefore, entitled to make a second homestead entry. Mr. Lawrence, after earning his right thereto, assigned his homestead to Mr. Wycliffe Goodwin, to whom a patent issued therefor on the 11th September, 1891. A road allowance one chain in width has been reserved through the south-west corner of the N.W.¼ of Section 24, Township 36, Range 25, West of the 4th Meridian, beginning at a point on the

I am ... grateful for the ... of the bargain ... every way — even to ... clear ... leaving my cheque today with the stipulated sum required.

I feel that I have no right to trouble you again about this matter, at the same time I believe you will in justice consider that I should not have been put to the necessity of asking you to plead for a concession already clearly defined.

Believe me

Yours faithfully,

Mr. Frank Lawrence

Memorandum:-

I beg to refer you to Mr. Goodeve's memorandum of the 17th April, 1900, submitting Mr. H.F. Lawrence's application to purchase the S.W.¼ of section 24, township 36, range 25, west 4th meridian, north of Devil's Pine Lake, containing 3 acres, shown on the sketch beneath the memorandum above referred to.

The sale was authorized by Mr. Turriff, then Commissioner of Dominion Lands, at the current rate of $3.00 per acre, but as the proceeds of the sale would be less than $20.00, it was decided that Mr. Lawrence would have to pay, in addition to the purchase money, a patent fee of $10. It will be observed that according to the sketch referred to, with the exception of a small portion thereof, the remainder of this quarter section north of the Lake was patented as a sale to Mr. H.F. Lawrence.

Mr. Lawrence did not avail himself of the privilege granted him of purchasing the 3 acres, above mentioned, and in this connection I beg to submit for your perusal the letter of the 20th ultimo from the Agent of Dominion Lands, Pembroke, in which he states that Mr. Lawrence has recently forwarded him a cheque for $9.00 on account of the purchase of the 3 acres in question, and asks as such a long time has elapsed since Mr. Lawrence was advised that he might purchase the land whether

J.S. Greenway, Esq.,

whether he may accept the payment.

If it is proposed to allow Mr. Lawrence to carry out the sale, it will be necessary for him, in addition to the purchase money, to pay the patent fee of $10, and I think he should also be called upon to pay interest from the 14th June, 1900, being 30 days from the date of the letter advising him that he could purchase the said land on the terms above mentioned.

SIR,

It has been reported that you are not complying with the provisions of the DOMINION LANDS ACT, in regard to the homestead S. E. 1/4 Sec. 32 Twp. 52 Rge. 23 W. 4th M. for which you now hold entry, and you are therefore required to show cause, within ~~thirty~~ eight days from this date, why the said entry should not be cancelled.

I am to warn you that failing the production of satisfactory evidence by you within the time limited, cancellation may go by default.

To enable you to furnish such evidence on the points required in your defence a blank form of Statutory Declaration is herewith enclosed, which you will be good enough to have properly filled up and, if possible, corroborated by two reliable and disinterested witnesses cognizant of the facts and returned to me here, after it has been duly completed.

It is desired that your statements shall in all respects be full and accurate, and that you shall be particularly careful to show clearly where you have been residing since you obtained your entry and exactly what you have done upon your homestead each year as to residence, cultivation and improvements.

I believe that Mr Keith's home is on his first homestead at Clover Bar. His family is one of the most respectable and worthy in the district. He is quite mistaken in thinking that there is any desire to deal harshly with him. In fact I rather went out of my way to assist him - if he had any bona fide intention of taking up his home on this land. I doubt Such intention; and this being the case do not think that he should be permitted to hold the land. However the case has been placed on Mr Coleman's list and the information he may get will be transmitted to you in due course.

Edmonton, Alberta, Sep 11/01.

Jas. A. Smart, Esq.,
Dep. Minister of Interior,
Ottawa.

Re claim of W. Keith to S.E. 1/4 31, 52, 23, 4;
Reference #1229372.

Mr Keith is a second homesteader and his second homestead is evidently about to be cancelled. Mr Keith is in every way a desirable settler, an old settler, and a deserving man, and as the law has been changed so as to require actual residence on the 3rd homestead I think that it would be a very great hardship to cancel it on the ground of non residence, which, by the way, he absolutely denies. You can see it would be looked upon unfavorably if the Government were to cancel Mr Keith's claim under the law as it stood and allow another to obtain his claim under the same conditions as to residence under the law as it stands.

The intention of the change of the law was to relieve settlers from an unnecessary hardship, this being the case it is entirely reasonable that the law should be of a remedial nature, retroactive.

Hoping for a favorable consideration of Mr Keith's cla

Memorandum:-

Mr. Burgess,

The Agent at Edmonton should be instructed in this case that under section 4 of the last Amendments to the Dominion Lands Act, Mr. Keith is not required to reside at all upon his second homestead. The argument which Mr. Bottan advances against the effect of this provision has no doubt some force, but if so the law was amended so as to permit of a homesteader to reside on his first homestead while performing the other duties in connection with his second homestead, it was done advisedly and after mature consideration.

MEMORANDUM;- Re S.E. 34-47-15, West 4th M.

Mr. Hume.

Mr. William Keith made entry for the above mentioned land on the 17th of October, 1896.

Cancellation proceedings were instituted on the 1st of May, 1914, and a defence filed by the homesteader in which he claimed to be residing on his original patented homestead, the S.E. 34-47-15 W. 4th M. and no cultivation on his quarter section, but was the owner of about sixty head of cattle and had spent in improvements on his land. A Homestead Inspector's report was then called for.

I beg to draw your attention to the memorandum from the Secretary of the Department, herewith marked, and also a memorandum from the Acting Deputy Minister, marked.

The Inspector's report has now come to hand, in which he states that Keith resided on the S.E. ¼ of Section 34-47-15 West 4th M. continuously from the date of entry to the present date. Has fenced his quarter section with four wires valued at $168.00.

The house and stable erected on his land were burned three years ago, has no cultivation to his credit, but was the owner of from twenty to thirty head of cattle in each year from 1909 to the present date.

ite. He also st tes as follows;-

"There is 10 ac es of high dry land, that coul be broken. This is on the side of hill and is rough. The b lance is low & wet. May coul be put on some of it in dry summer."

S.E.¼ 34--52--23--W.4th M.
Second hd. William Keith.
October,1906.

Please see Acting Deputy Minister's memorandum addressed to you on the 14th of August last. (Marked)

Cancellation proceedings on behalf of H. A. Dickey were taken on the 1st of last May.

In his defence entrant claimed continuous residence on the above land, or on his first homestead in the vicinity, and that he had substituted stock for cultivation.

A Homestead Inspector reported on the 3rd ultimo that Mr. Keith has lived steadily on his first homestead; that his improvements now consist of fencing worth $168.00; that a $125.00 house and a $50.00 stable were destroyed by fire three years ago, and that he has had twenty to thirty head of cattle each year since 1909.

The Inspector states that there is 10 acres of high land which is rough and on the side of a hill that will not be broken, and that the balance is low and wet.

As Mr. Keith made his entry prior to the 1st of September, 1908, he is at liberty to substitute stock.

It appears, therefore, he has been complying with the regulations and may possibly have completed his settlement duties.

The cancellation proceedings might be abandoned.

Referring to your letter of the 13th ultimo, enclosing report by Homestead Inspector Wynne, I beg to inform you that it is found on examination, that there is considerable disparity in the evidence submitted by the Inspector and that furnished by Mr. Wm. Under the circumstances, it is considered advisable that another Homestead Inspector should make a further report as to the settlement duties performed in this case.

Kindly issue the necessary instructions and notify the Inspector that his report should be based upon the evidence of disinterested settlers, rather than upon the homesteaders evidence.

MEMORANDUM,-

S. E. ¼ of 34,-52,-23,-W. 4th Mer.

2nd Homestead Wm. Keith, October, 1896.

Cancellation proceedings instituted, May, 1914.

Please see the Acting Deputy Minister's Memorandum of the 14th of August last (Marked).

Question: Are the cancellation proceedings instituted in this case to be abandoned?

The entrant, in his defence claimed continuous residence on his first homestead in the vicinity and to have substituted stock in lieu of cultivation.

According to a report made on the 3rd of October last the entrant lived continuously on his homestead and had buildings on the second homestead, the quarter in question, consisting of a house worth $125.00 and a stable worth $50.00, which were destroyed by fire some three years ago. In this report he was given credit for the ownership of some twenty to thirty head of stock from the year 1909. As some doubt existed as to the stock in question and where they were kept, a further report was called for.

According to a report of the 7th instant the entrant has been in continuous residence on his first homestead or second homestead continuously and has had, since the month of May or June of this year, the second homestead substantially enclosed with a four wire fence worth $170.00, and has since run thereon twenty-seven head of stock.

While this land is of a character difficult to break, the question need not be considered inasmuch as the entrant obtained entry prior to the 1st of September, 1908, and is, therefore, entitled to substitute stock in lieu of cultivation. The Inspector sets out in his general remarks:-

"Outside of the short periods of residence done on this mans second homestead he has lived on his first Homestead above described almost continuously from about 1883 to date. Mr. Keith put a permanent fence around this land in May or June 1914 and had 27 head of stock there but no permanent fence was on the place previous to season of 1914 nor no stock was kept there previous to 1914.

AFFIDAVIT IN SUPPORT OF

A Claim for Homestead Entry by a person who has previously obtained a recommendation for Patent for a Homestead after three years' residence and cultivation.

I William Keith do solemnly declare that I am over eighteen years of age, that to the best of my knowledge and belief the land in respect of which my application is made is of the class open for Homestead and Preemption entry, that there is no person residing on the said land nor are there any improvements thereon that this application is made for my exclusive use and benefit, with the intention of residing upon and cultivating the said land and not directly or indirectly for the use or benefit of any other person or persons whomsoever; that I obtained an entry for the S. E. quarter-section of Section 20 Township 53 Range 23 W. of the 4th Meridian as a Homestead on the 13th day of August 1883, that I resided upon and cultivated the same for three years and that my said homestead has been recommended for patent, a certificate of which fact, signed by the proper Agent of Dominion Lands, and countersigned by the Commissioner of Dominion Lands, I now produce.

Sir,

In reply to your letter dated the 8th Inst. I would inform you that the South East ¼ of Section 30, - Township 14, - Range 20, - West of the 4th Mn. is the Pre-emption entry of Mr. Henry Anson Bliss, enclosed you will find a printed form on which to apply for cancellation, and purchase. If cancelled it may be sold to you, at the price of three dollars per acre, $3.00, one ¼ cash, and the balance in three equal annual instalments. It is possible payments may be extended, so long as interest on the unpaid balance is paid promptly, interest six per cent per annum. A young man when he attains 18 years of age, can homestead; there are no means whereby your son can be granted a preferential right to land unless as purchaser. If you are eligible to make homestead entry, you could do so to this ¼ Section, but you would require to reside upon and cultivate and improve it for three years, residence six months in each year.

CROWN TIMBER OFFICE,

Calgary, 9th April, 1900. 189

Sir:-

I have the honour to enclose herewith a copy of a letter received from Mr. David Baird of High River, Alberta, relating to the S.E. 1/4 of 36 - 18 - 29, West of the 4th.

This Office letter of the 6th of April, 1899, to which Mr. Baird refers, reads as follows:

"Referring to your application to homestead the pre-
"emption entry of Mr. H. Anson Bliss, S.E. 1/4 of 36 - 18 -
"29 West of the 4th, I have the honour to inform you that
"Mr. Bliss, who is in Dawson City, is being notified to
"state what his intentions are regarding the land in ques-
"tion.

You will observe by this Office letter of the 22nd March, 1899, to Mr. Baird, a copy of which was sent Head Office, that that Gentleman wrote stating that he desired to make application to cancel this quarter as he wished to homestead it.

There is an application from Mr. W. E. Holmes, of High River, now before the Department, to have the land held for his son.

Sir

Since returning home from Calgary I have looked everywhere for the letter from Mr Bliss in which he authorizes me to say that he has no objections to my getting the S.E. ¼ of Sec 36 Tp 18 Rg 29 west of the 4th M. and I regret to say I cannot find it, I must have destroyed it amongst an accumulation of letters I get rid of now and then However as I mentioned in my last, I expect a letter from him any day on this subject. In the meantime if you wish it I might refer you to Hon Senator Lougheed of Calgary who has known me for years and although I have not asked him, will I have no doubt not hesitate to vouch for the truthfulness of the statements I make

Sir,

I am directed to inform you that an application with a view to the cancellation of your preemption entry for the S.W. ¼ of 36, 16, 29, W. 4th M., has been filed in the Department, and it is necessary to know whether you have any wish to keep the land, and, if so what you are prepared to do in the way of making the required payments, which is now long overdue. The case will be held over for a sufficient time to give you an opportunity of notifying the Department of your intentions in the matter. I am to ask that you will do this as soon as possible.

Sir:-

Referring to your communication of the 27th. ultimo, File 408525, addressed to W. F. Holmes, informing that Gentleman that the Commissioner had consented to the cancellation of the pre-emption of Anson Bliss for the S.E. 1/4 of 36 - 18 - 29, West of the 4th., and to his son being permitted to acquire it as a homestead, if he was eligible and the first applicant, on the understanding that if Mr. Bliss did not intend to abandon the land his son's entry should be cancelled, I have the honour to inform you that the land in question has this day been cancelled in the books of this Office, but I do not see how the son of Mr. Holmes, who will not be 18 for about 4 years yet, can be allowed to homestead it. Mr. Holmes should be called upon to purchase. See his letter of the 26th. March, 1900, a copy of which you have.

Sir:-

Referring to your communication of the 12th instant to Mr. W. F. Holmes, of High River, Alberta, File 408525, I have the honour to inform you that Mr. Holmes paid into this Office in Scripthis day the sum of $240.00, and a receipt was granted reserving thereout one chain in width along southerly limit for stock watering purposes. Mr. Holmes pointed out that as the North half of Legal Sub-divisions 13, 14, 15 and 16 of Section 25, Township 18, Range 29, West of the 4th, had been reserved, he did notsee the necessity for reserving any portion of the S.E. 1/4 of 36. However, he has no particular objection to it.

MEMORANDUM TO MR. PEARCE.

The Agent of Dominion Lands, at Calgary, has reported in his return of the 23rd May last, the sale of the SE¼ of Sec. 36, Tp. 18, Rge. 29, W. 4th M. In his return is the following:- "in view of the presumption of Anson Bliss cancelled, one chain in width along the Southerly limit to be reserved for the present, for stock watering purposes, until H.O. decides whether or not it is necessary".

In the authority given by the Department to purchase this quarter section there is no mention of this being obliged to reserve the Southerly chain. In his letter of the 18th ultimo, the Agent states that Mr. Holmes claimed out that as the N½ of Legal Subdivisions 13, 14, 15 and 16 of Sec. 25, Tp. 18, Rge. 29, W. 4th M., had been reserved he did not see the necessity for reserving any portion of the SE¼ of Sec. 36, but he had no particular objection to it.

Do you think it absolutely necessary that this Southerly one chain should be reserved or should Mr. Holmes be allowed to purchase the full quarter section.

to it and which entry was effected prior to arrangements about the reservation off the portion of [illegible]. If it ~~does not~~ be possible [illegible] it the portion then settled to the East, that the reservation of the portion of section 23 is given effect to, there is no necessity for reserving the block out of the S. E. ¼ of it.

certain You can aid me - largely in the
matter of obtaining a final settlement -
After I came here & looked around for a
suitable piece of land - I chose the following
abandoned 1/4 Section - viz. S. E 1/4. of 36-18-
-29. West of the 4th Principal 12 years ago -
by Mr H. Anson Bliss - who has been gone from
this 6 years - and now in Africa. He disposed
of the Homestead 1/4 - to a party by the of W. Homes
who has built a house on the said 1/4. also
he says Mr Bliss left him the good-will of his
Pemption. He but as the same are not transferable
the land therefore is still the Government -
As my Application was the first - (in my Son's name

Sir,

I beg to acknowledge the receipt of your letter of the 1st ultimo, addressed to the Acting Minister, which has apparently only just reached the Department, and in reply am to inform you that the S. E. ¼ of Sec. 19, Twp. 26, Rge. 26, W. 4th. Mer., as also the Timber Limit, as one block by Mr. H. A. Bliss as a Pre-emption, has been sold, and the quarter section is no longer at the disposal of the Department. The purchaser was the first applicant for the land, having complied with the requirements, that is as long as I am informed. You will see, therefore, that it is impossible to consider your application for the Land. I am, however, to inform you that the Pre-emption is open to entry as soon as the Patent issues.

Sir,

Referring to your report lately of a sale of the South East quarter of Section 36, Township 18, Range 20 West of the 4th Meridian, see your File 1281,, out of which you reserved one chain in width in connection with the reservation for stock watering purposes; I beg to say that Mr. Pearce, to whom the matter was referred, advises that if the reservation of the North halves of Legal Sub-divisions 13, 14, 15 and 16 of Section 25, in this township, be given effect to, that there is no necessity to reserving the one chain in width out of the South East quarter of Section 36. As you were told in my letter of the 6th ultimo, ref. 85945,T&M, these legal subdivisions are to be reserved for the present, and consequently there is no need for you to reserve the said one chain in Section 36.

DOMINION LANDS OFFICE,

Sir,

I beg to enclose herewith the application for patent of--Gilman Wilson Allison--for the --N.E.--section-32--Township-56---Range-19--W.4th M.

The land as you will observe, is in the vicinity of Lake Saskatchewan but as I am unaware whether the Saskatchewan has been withdrawn by Order-in-Council, or in such manner as to prevent me from dealing with the application, it seemed advisable to take the evidence and to submit it to you.

If Mr. Wilde's recommendation is essential you will, I presume, send the application to him for the necessary action.

The applicant was not aware of the re-opening of the land for entry and it would have put him to serious inconvenience, and some little expense, had I insisted upon his visiting the Land Office with his witnesses.

I am, Sir,

Your obedient servant.

Enclosure.

Sir,

I am directed to return herewith the application for patent of Henry Lafontaine, for the N.E.¼ 12--8--2, W. 4th M., and to say that it is not clear that he is entitled to certificate of recommendation. The evidence shows that he lived either on the land or within 1 mile of there since 1892, and whilst he is entitled to credit for residence on his homestead before entry--assuming that he was of the full age of 18 years, he being only 21 now--he cannot count the time spent on it prior to entry. Mr. Lafontaine should state clearly the different periods put in on the two claims, stating which he should wait until three years from the 10th of May last have expired, which will be on the 10th of last month, and then execute a supplementary statement.

Your obedient servant,

mention of any such fee .

I am still in doubt whether, properly , in view of the plain reading of the Certificate , a fee shouldbe imposed ; and also whether the C.O. Circular above quoted is sufficiently definite to enable me to collect a fee from the Scrip locator without positive instruction to that effect .

DOMINION LANDS OFFICE,

Edmonton 27th January 1897. 189

Sir,

In reply to your letter of the 19th inst . 408864, I beg to say that I permitted the application of Half-Breed Land Scrip No 0292 upon the SE¼ 5-54- 23 W4th M in consideration of the fact that this land had already been held under ordinary pre-emption entry and appeared , therefore, to be of the class of lands to which this Scripis properly applicable . The land having been thus entered , it did not occur to me that any question could now arise as to its original Status .

With regard to the non-collection of an inspection fee I relied on the wording of the Scrip itself, as follows :-

" This Coupan is receivable as payment in full for one hundred and Sixty acres of Dominion Lands open to ordinary homestead and pre-emption entry ."

Inasmuch as the land had been recognised by the Department as being eligible for pre-emption entry it seemed to follow as a matter of course that the Scrip locator was entitled to benefit, to the extent which the Scrip Certificate prescribes .

Since receipt of your letter I have Carefully examined our files relating to the Subjects " Cancellation or Inspection Fees " and " Half-Breed Scrip " . Whilst nothing appears in the former file to qualify in any way the Scrip locator's right to have the land Scrip recognized as payment in full for the land to which it may be applied I regret to say that I had in this transaction , quite lost sight of C.O. Circular of April 10th 1888, Ref :48614, which States that Scrip of this Sort is applicable to Cancelled land " Upon the locatee paying any extra fees or price imposed by the Land Board ."

The existence of this Circular, had it been brought to my Notice, would have led me to take the precaution of referring the matter to the Commissioner of Dominion Lands for instructions as to whether the inspection fee should be collected in this particular case / altho the order of the Land Board , dated 20th July last. (Which contemplated a Sale of the land) Makes no mention

Dear Mr Ross

Your Ref: 10886/6d.

Please see my official letter of this date

In looking up this matter for an instruction, I fail to find any authority for it in the act and do not remember any in the Regulations.

Yours very sincerely

that I am not officially to look up the authority upon which my Superiors have their instructions but this strikes me as being sufficiently noteworthy to warrant or cause me in drawing your attention to it as a matter merely of general interest.

In my crude opinion Acts of Parliament ought to be highly respectable things, to the official as to the subject. And if we are obliged to curtail the latter's privilege the authority upon which we do so

shamed be very clear and definite.

No one, so far as I am aware, has demanded of paying inspection or Cancellation fees - excepting in a Compressed and irresolute way - resulting more from his reluctance to pay out money than to any suspicion of illegality in our demand. I dont know that it is illegal but am surprised at my inability to find authority for it. and on the impulse of the moment think it worth while to draw your attention to the matter. Conscious of my limited experience and knowledge I have led me into seeming impertinence or absurdity. We have to learn a good deal, unfortunately, at the expense of vanity and I must keep on "walking over" myself even if the profit derived quite compensate for the pains.

I remain faithfully

Ottawa, 22nd February, 1897.

Mr. Hall. Mr.Button was asked why he accepted a Half-breed land scrip on part of an odd-numbered section when the scrip only authorizes its location upon an even-numbered section. In reply to this he says that the land had already been held under preemption entry and therefore he considered, when that entry was cancelled, that the land would become of the class to which Half-breed land scrip might be applied.

He was further asked why, as the land had been entered for, he did not, when re-entry was made, charge an inspection fee. In reply to this he quotes the Half-breed scrip which makes it acceptable in full payment for 160 acres open for homestead and preemption entry; but says that he overlooked the Commissioner's circular which states that such scrip is applicable to cancelled land "upon the locatee paying any extra fees or price imposed by the Land Board." He says,however, that had this circular been brought to his attention he is in doubt whether it would have been sufficient to authorize him to charge an inspection fee in this case without ~~xxxxxx~~ positive instructions from the Commissioner, to whom he would have referred the matter.

Dear Sirs

Mr Louis Moran has asked me to forward the enclosed Statutory Declaration relative to his homestead entry.

In explanation of his giving the mortgage in question, I might say that the Advocates, upon whose advice Mr Moran acted, in the giving of the Mortgage, hold that inasmuch as under the "Land Titles Act" a Mortgage is not a transfer or assignment of the land affected by it but is merely a charge upon such land, therefore, the giving of such Mortgage did not violate the provisions of the "Dominion Lands Act" and is, therefore, lawful.

In acting on such advice Mr Moran did what a man in his position would naturally do, and the fact that the Mortgage was discharged upon the possible complication by reason of it being made known will I presume prevent any delay in the issue of a recommendation for patent.

Yours truly,

MEMORANDUM

APPLICATION TO PURCHASE

of Paul Audet

Frac. N.E.¼ Section 31, Township 1, Range 12, West of the 4th Meridian, lying North of ~~Lake~~ River, containing 33 acres, shewn on sketch attached, hatched in red.

I beg to submit for consideration and decision the application above referred to. The land applied for is available according to the records of the Department and the applicant was granted homestead patent in October, 1909, for the adjoining fractional N.W.¼ 32, ~~the portion in question~~, shewn hatched in red on the sketch. The parcel bordered blue on sketch, fractional N.E.¼ of Section 31, South of River, is the pre-emption (unpatented) of the applicant.

The Homestead Inspector recommends that the application be granted, the sale to be made at the rate of $2.00 per acre.

The land adjoining the parcel applied for on the North, namely, the S.E.¼ of Section 6, Township 1, Range 12, West of the 4th Meridian, is the pre-emption of Alexander Casper, entry for which was made in November, 1908.

The fraction in question was applied for in December, 1910, by Mr. B. E. Sickler, the owner of the N.W.¼ of Section 31, but his application was refused in accordance with your decision endorsed on my memorandum of the 31st January, 1911, beneath.

Memorandum:-

Mr. Greenway.

The homestead inspector's report [illegible] due to the fact that the Agent of Dominion Lands evidently failed to inform the inspector that there were other applications to purchase this parcel and also that any owner of adjoining land might be entitled to make application therefor. A supplementary report should be asked for. It might be possible that this parcel should be reserved for the party who takes up the balance of the quarter-section.

Deputy Minister.

S.R. **Department of the Interior,**

LAND PATENTS BRANCH,

Ref. 45[illegible].

Ottawa, 3rd October, 191[illegible].

MEMORANDUM:-

Referring to your memorandum of the 26th January last, and the Deputy Minister's of the 31st idem, which have been placed directly beneath, respecting the application of Paul Audet to purchase the fractional N.E.¼ of Section 31, Township 1, Range 1-, West of the 4th Meridian, lying North of River, I beg to submit, for your consideration, the supplementary report called for in connection with this application, a synopsis of which follows:-

Recommended that Mr. Audet be allowed to purchase, at $[illegible].0 per acre, as he finds it necessary, on account of the high banks along the river, to go on the land to get to his buildings; land not fit for agricultural purposes. Mr. Sickler (of N. ½ 31) does not access to his buildings at all times of the year; not thought advisable to reserve the parcel in question for person who may enter for the balance of the quarter section, no one likely to take the land as a homestead.

This office, on the 4th August, forwarded here an application from Howard Leslie to purchase the fraction under consideration. Mr. Leslie, according to his application, is the owner of the fractional S.E. ¼ of Section 31, which land was patented in October, 1[illegible], to Benjamin A. Sickler, at a Time sale.

Memorandum:-

The Commissioner towards have the application of Neil Galbraith to purchase the North West quarter of Section 28, Township 51, Range 1 West of the 5th Meridian. The land is vacant in the books here and in those of Mr. Pole, and I know of no reason why it should not be sold to him. I enclose a sketch showing the position of the land. On the west coast of the lake it would appear there is timber, but to what extent, or what quality, I cannot say.

Respectfull submitted.

The agent thereof to be authorized to receive the purchase money after the sale, but only after the inspection thereof and the Land Agent to be satisfied that the same is to be valuable chiefly for its timber, and not for its hay or otherwise. If it be

Sir,

In 1898 I applied on S.E. 1/4 s. 34, tp. 41, r. 1 w. 4 m. for a pre-emption and paid $10.00 to Dominion Land Agent, Edmonton. In 1899 I entered for the same quarter and paid $10.00 more, Mr. Oliver being then Minister of the Interior. In 1902 I had it patented. This is all 160 acres, and from '98 until '01 I resided continuously on the land, with the exception of a few months during harvest, which I was away freighting.

I applied for patent in 1901 but it has not until lately been issued.

I enclose the document to extend the homestead which was granted in error, and which I cannot claim as a pre-emption since I have been absent from it more than six months. Kindly advise me if I am allowed to enter for another 160 acres, as provided by R.S.C. 1/4, c. 54, I, West Sec.

I would earnestly request that the application may be favorably dealt with.

Respectfully yours

(Sd) Neil Gatenby.

Hon. R. W. Scott,

Acting Minister of Interior,

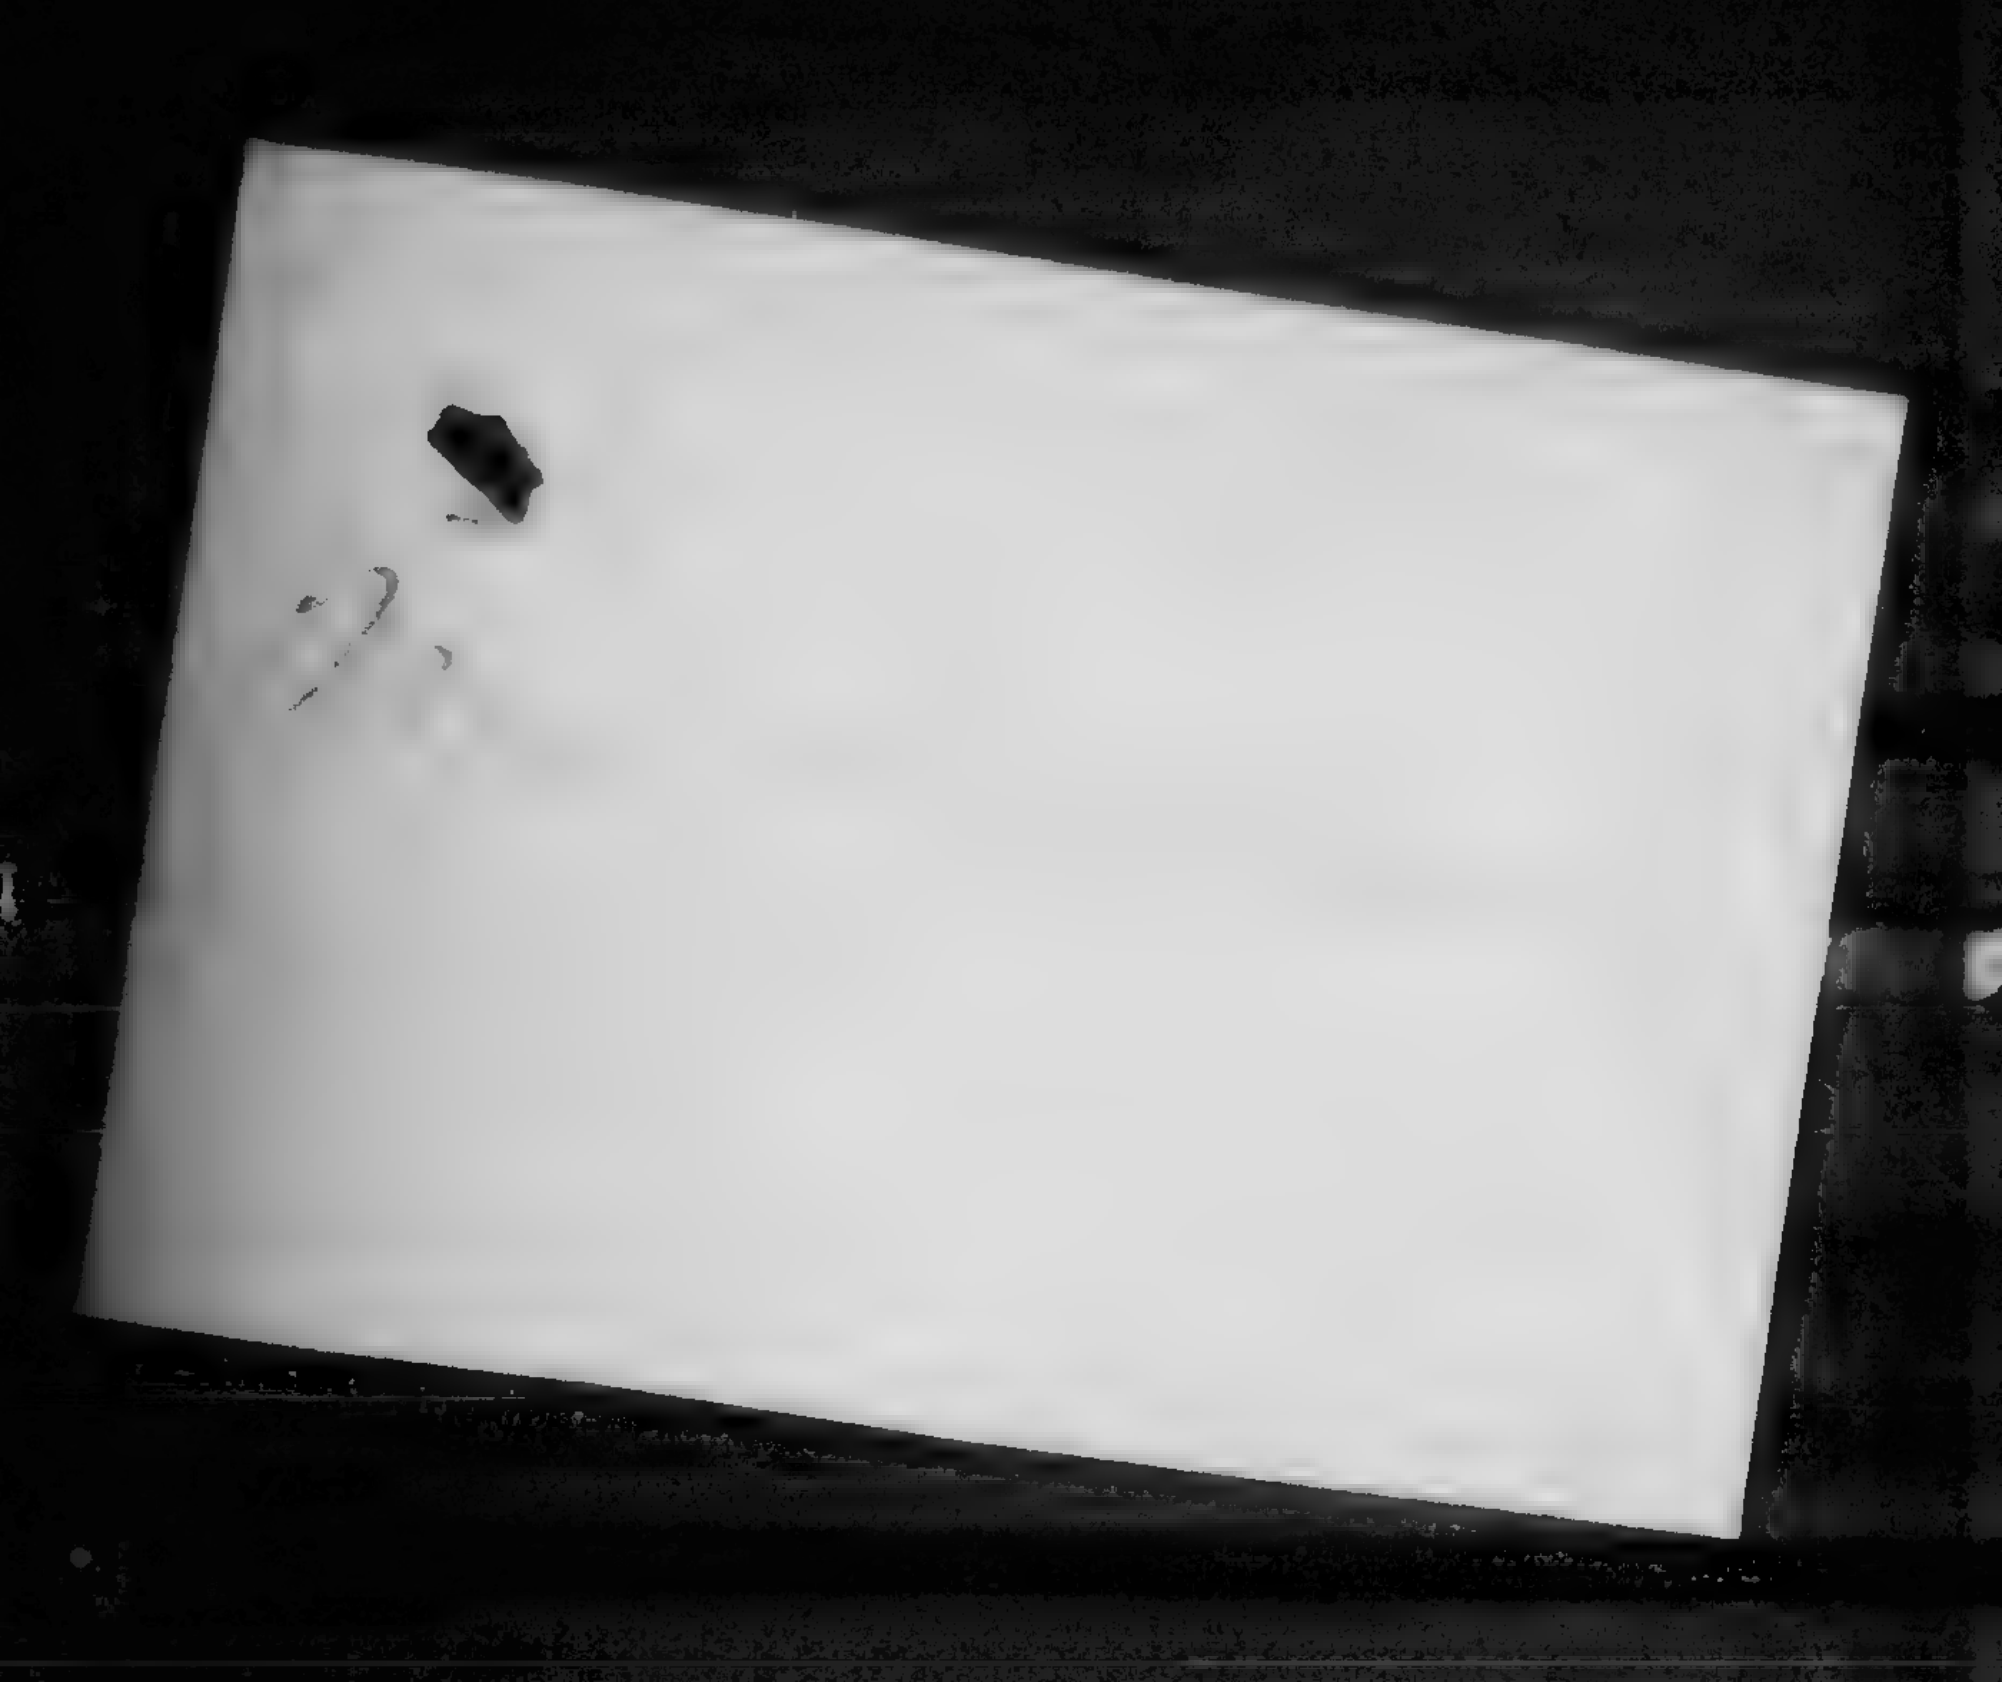

Sir:-

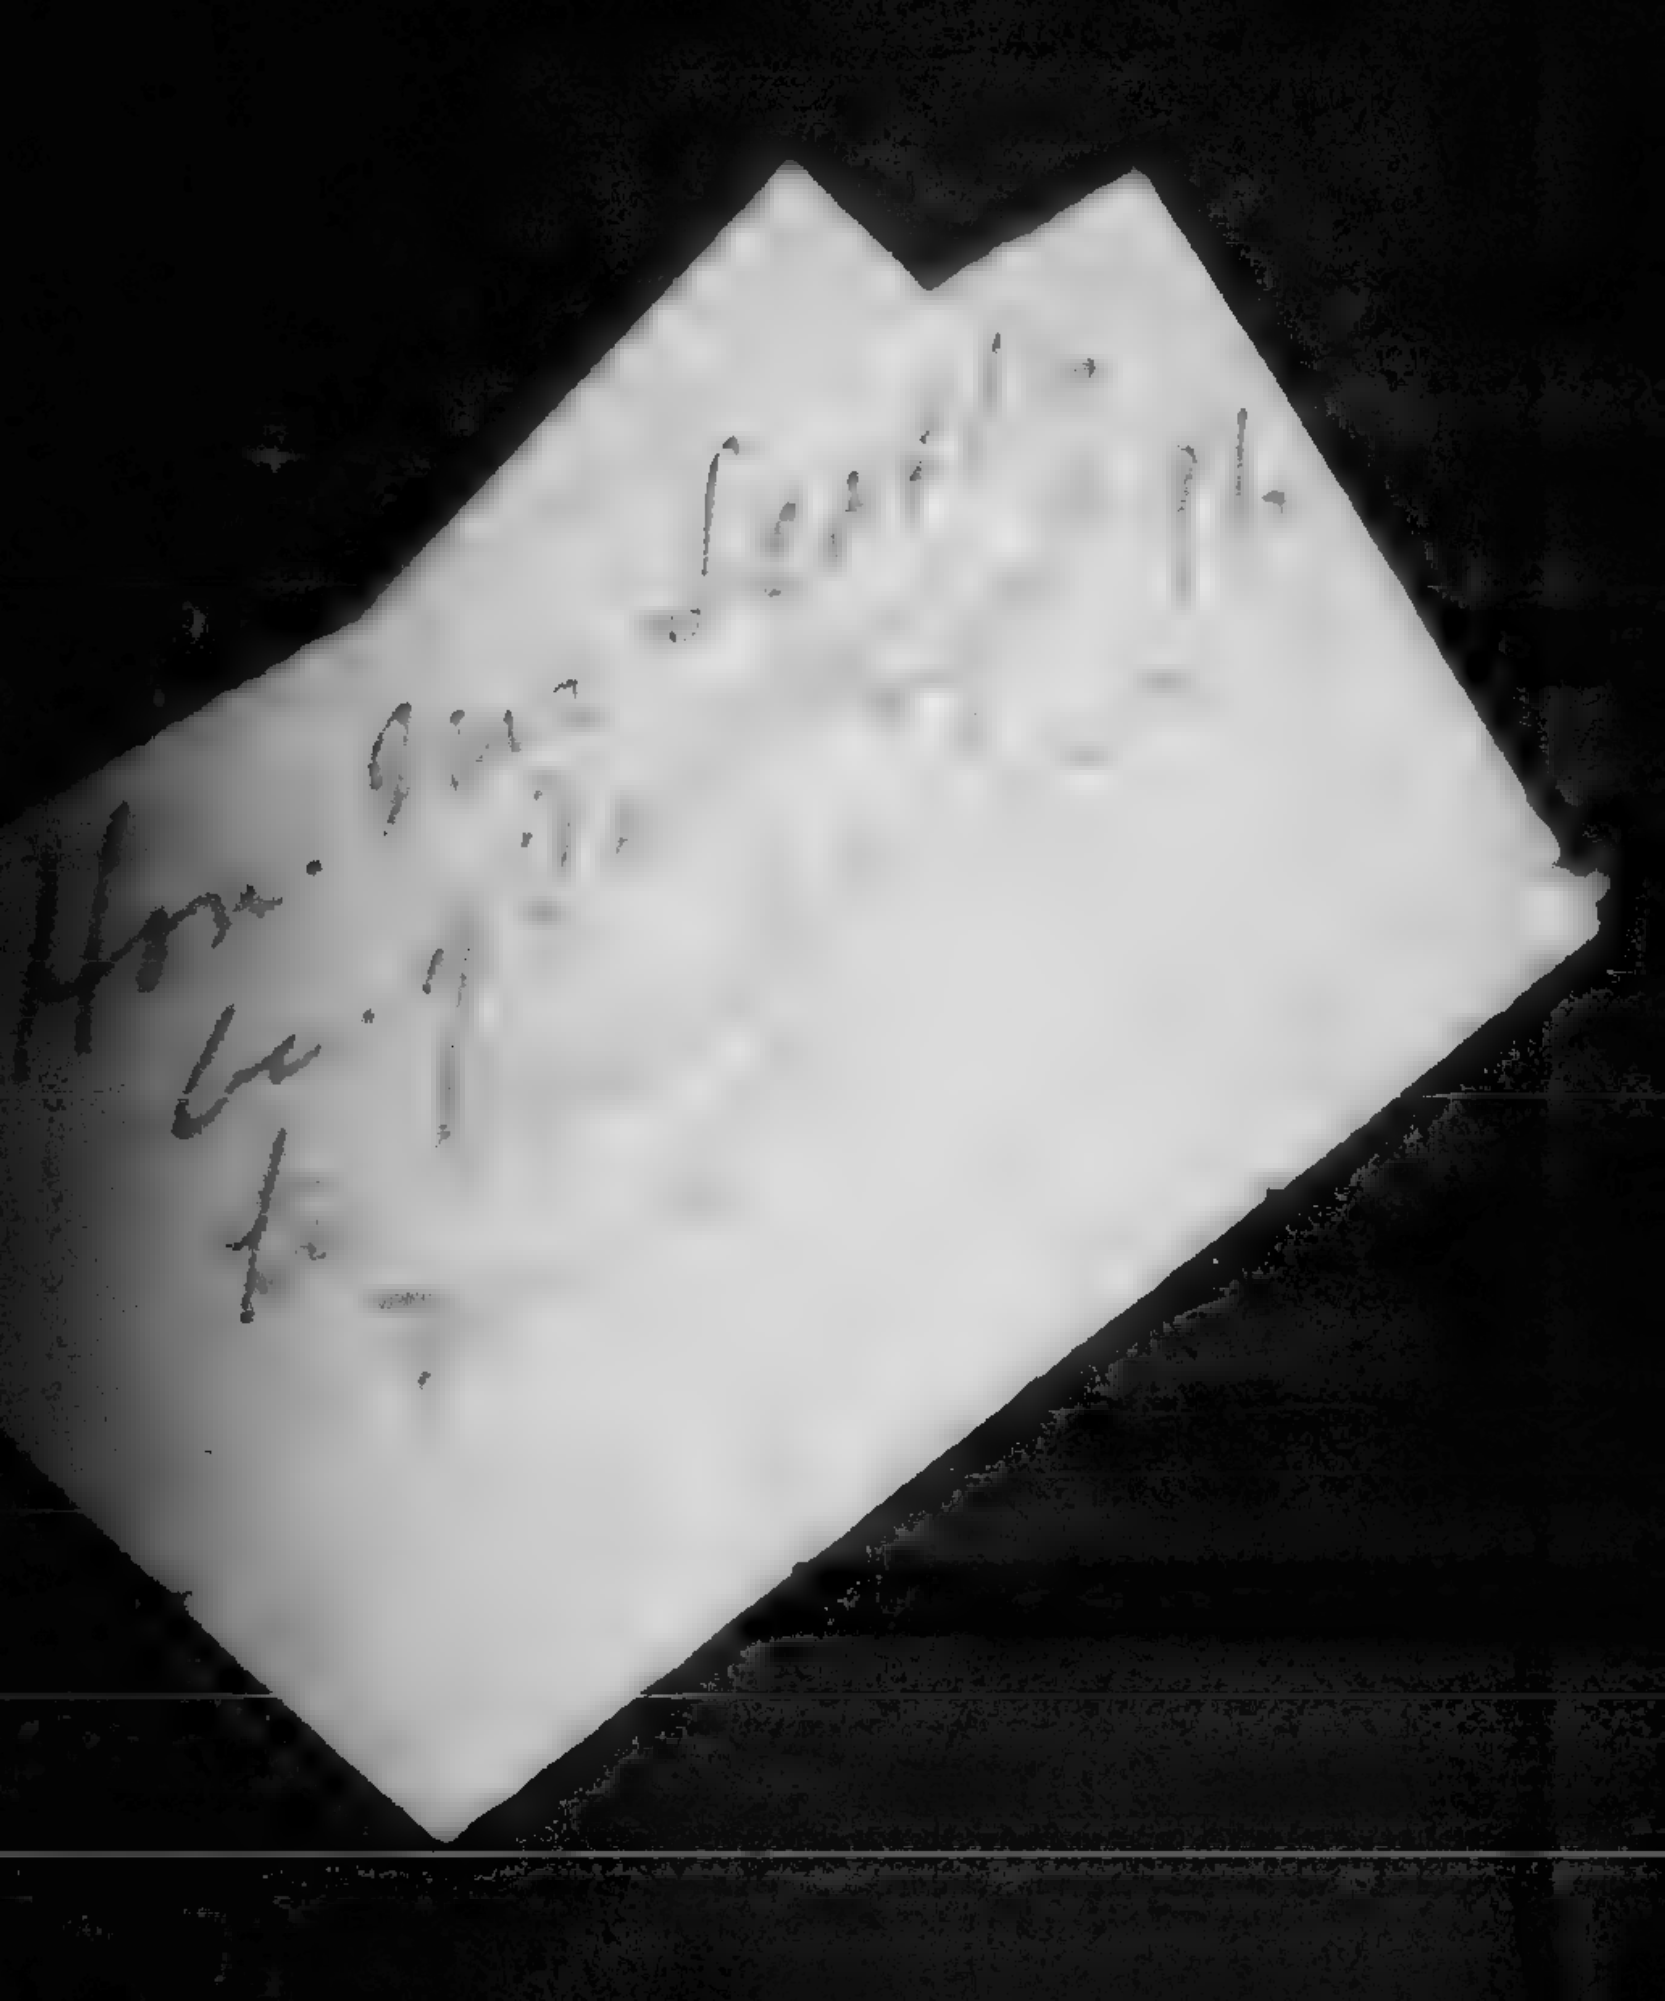

I beg to [illegible] you the application of Neil Galbraith, of Edmonton, Alberta for a second homestead. Mr. Galbraith states his case in the letter enclosed. Please return letter with statement of Department's reasons for not granting him second homestead.

MEMORANDUM

Department of the Interior.

M.

40162.

Ottawa, 24th September, 1892.

Dear Sir,

I have to acknowledge the receipt of your letter of the 15th instant, with regard to the application of Mr. Neil Galbraith, of Wingham, for permission to make a second entry, and return his letter herewith, a/ir. retained a copy for record in this department.

Encl.

The difficulty in Mr. Galbraith's case is that the statement which he now makes under oath, and which was not corroborated by two of his neighbours, upon which his application for patent was based, does not agree with the statement which he now makes in his letter to you. It does not appear from his application that he squatted on this land prior to survey, but that he obtained entry in November, 1888, and performed that entry by commencing residence on the land in April, 1887, residing continuously on it from the Spring of 1888 until the date of his application for patent, the 6th February, 1892. In his letter to you he says "From 1888 until 1891 I resided continuously on the land with the exception of 3 months." But even if the latter of these two statements were correct Mr. Galbraith would not be entitled to make a second entry, because he did not obtain

obtain his first entry before the 2nd of June, 1862. Accordingly to the opinion of the Department of Justice in such cases, this fact would of itself, under the law as it stands, exclude him from the privilege of making a second entry, Mr. Colbraith apparently not having been a squatter before survey.

Yours truly,

Dear Sir

Having received a letter from the Department of Interior together with one from the Land agent here granting me the [illegible] dated Dec 31st 1896 to purchase parcel of land via N.W. ¼ 28. 51. 1. west 4th M. I take the liberty to write and request you to help me to be allowed to enter for the same as second homestead. As I am entitled to the same according to the date of entry of my former Claim viz S.E. ¼ 6. 54. 24 west of 4th M. and seeing I am unable to make a living other wise having lost one foot and not educated enough to take a situation as Clerk

I would feel ever indebted to you and the Honorable Minister of Interior

Dear Sir:-

I beg to enclose a letter from Neil Galbraith of Edmonton asking for the right to second homestead a certain fractional part of land which he has been accorded the privilege of pre-emption. He states in addition to homestead [illegible] of the date of entry of his first homestead I think however, he means the date of his occupation.

I am personally acquainted with Mr. Galbraith and know that he was settled in plenty of time to entitle him to second homestead. Since his settlement he lost one foot on account of being frozen and is therefore incapacitated to a great extent from profitable employment which might enable him to earn the price of the fractional part of land which he desires

A reply for transmission will oblige.

Re Mr. Neil Galbraith's claim to a second homestead referred to in the letter from Mr. Frank Oliver, M.P., of the 10th instant.

According to Mr. Galbraith's statement made under oath when making his application for patent, which statement was corroborated by two of his neighbours, he made his entry on the 23rd November, 1886, built his house in November, 1885, and perfected his entry in April, 1887, and he is not entitled as the law now stands (Clause 43, Dominion Lands Act) to make a second homestead entry.

In this connection, I beg to refer you to the Hon. Mr. Scott's letter of the 24th September last to Mr. Frank Oliver, M.P., in which the particulars of the case are fully set forth.

Dear Sir,

Referring to your letter of the 10th instant enclosing one from Mr. Neil Galbraith, of Edmonton, asking that he be allowed to record Homestead the fractional West quarter of Section 28, Township 52, Range 1, West of the 5th Meridian, I beg to say that I have carefully looked into this matter and find that Mr. Galbraith according to his own statement on making application for patent made entry for his first homestead on the 23rd November, 1886. He built his house in 1885 but did not perfect his entry until April, 1887, consequently he is not entitled to make a second homestead entry, a matter which I regret very much. The Hon. Mr. Scott wrote you on the 14th of September last in regard to this matter fully setting out the facts.

As I have pointed out to you in previous communications in reply to applications for this privilege, the Statute provides that unless a settler is entitled to receive patent for his first homestead on the 2nd June,

Frank Oliver, Esq., M. P.,
House of Commons,
Ottawa.

June, 1889, he is not eligible to make a second homestead entry.

Mr. E. W. Tiss[illegible] states that he would like to have that part of the N. W. ¼ of 12--21--1, W. 1st M., south and west of the river, added to his homestead, the fractional S. W. ¼ of the section.

The land applied for, which contains 1..[illegible] acres and is shown on the plan herewith, is vacant in the records of the Department.

The fractional S. W. ¼ of the section, which contains only 120.[illegible] acres, was entered by Mr. Tiss on the 25th September, 1900. The part of the N. W. ¼ applied for was the first homestead entry made by Mr. P. C. Wadman.

Under the circumstances, I think Mr. Tiss' request might be granted.

Sir: I wrote to the Department of Lands Edmonton about the 1st of April wishing to have the $15.00 refunded which I had paid for improvements on the E½ W½ L 4 and part of the N.W.L 4 of 28 51-1-W5M. as the improvements were of no value. The Homestead Inspector considers the improvements of no value. Please return the money the Edmonton office forwarded my former letter to you.

I wish my time of residence on homestead to "count" from April 1st although I did not sleep on the place until the last of April as during the month I was having a house built and material hauled for the purpose it count.

Yours truly
Duncan Martin

COMMISSIONER

Sir;

529283
1384

Yesterday Mr. Chas. McLeod, of Okotoks, Alberta, homesteader on the S.W.1/4 of 14 - 20 - 29, west of the 4th, came forward to make application for his patent, and I had not gone far with his application when I discovered that he had not completed his residence according to the regulations and in fact did not appear to have resided but very little upon the land having resided with his brother on section 10, same Township. After endeavoring for some time to show him that nothing would be gained by forwarding his application for patent as it stood and that he had better complete his residence, I left him and his brother, Edward McLeod, to think the matter over. In the mean time his brother filled in the answer to question number 6 as follows;

" Took possession Aug. 15th., 1896 "

and to question number 7, as follows;

" Aug. Sept. Oct. Nov., 1896 and April, May, June and "Occupied it place most of time since."

I then informed the applicant that his evidence was too indefinite entirely. However I filled in the balance of the Answer to question number 7, and as he appeared to think that I was not doing all that I might do for him, evidently being under the impression that the Agent could arrange to have

the

the patent issue on any kind of evidence if he chose to do so. I informed him that I would forward his affidavit to Head Office with a request that he be written to direct.

I informed Mr. McLeod that I could not take his brother as a witness, that he would require to bring in two dis interested witnesses. He then brought in a young lad to give evidence but I could see that the young man, either did not know very much about his residence or that he did not care to swear that McLeod had resided to any extent upon the place. I think from what the applicant stated, he is now residing upon the place and has been since the spring, but prior to that had been improveing his homestead but sleeping at his brother's house, which he evidently considered should be ~~considered~~.

I should judge from the Agent's letter that he had trouble with the applicant in this case.

Perhaps the better plan will be to have the Inspector look into the matter. Shall I do so & issue the necessary instructions?

Sir,

I am directed to inform you that the Commissioner has examined the evidence submitted by you in your application for patent for the S. W. ¼ of Lt. No. 29, West 4th, and has decided that it is too vague to enable him to decide whether you lived upon the land for six months in each of three years. When you are in a position to submit satisfactory proof, corroborated by two disinterested witnesses, of a compliance with the homestead provisions of the Act you should appear before the Local Agent or Homestead Inspector for the purpose. In the meantime the Homestead Inspector is being instructed to visit your land and enquire fully as to the performance of your duties.

Sir,

I beg to return the application for patent of the late Charles Woodhead for the S.W.¼ 14--20--29, W. 4th M., and to request that you will carry out the instructions of the Commissioner communicated to you in this office letter of the 29th August, 1899, and obtain a full report in the matter from the Homestead Inspector. We should be careful to make a close enquiry as to the performance of duties by the late homesteader.

COMMISSIONER.

Sir:-

See your file 410060. I have the honour to enclose herewith the application for patent by the late Charles McLeod for the S. W. 1/4 of 14 - 20 - 29, West of the 4th. I have not recommended said application as I am not satisfied that the homesteader put in the necessary residence. See this Office letter of the 17th August, 1899, No. 33054, Head Office file 410060. It may, of course, be possible that he resided with his father when not on his homestead. Mr. Thompson, the late Homestead Inspector, was requested to look into the matter, but does not appear to have done so. I would suggest that Mr. Homestead Inspector Stuart be asked to report. Another reason for my not wishing to recommend the application for patent is that the witnesses are the lat homesteader's brother, Edward S. McLeod, and his brother-in-law, Mr. John A Shields.

Sir,

I beg to enclose herewith the application for patent made by Mr. Charles McLeod for the [illegible] of Section 14, Township 20, Range 29, West 4th Meridian, your ref. 1597, and would refer you to the letter addressed to you from this Department, dated the 6th February, 1906, with the request that you will be good enough to state whether you have yet obtained a report from the Dominion Land Inspector in this case.

I might point out that you wrote to Mr. Dominion Land Inspector [illegible]. Stuart, on the 14th February, 1906, and nothing further appears to have been done in the matter according to our records.

Sir:-

I have the honour to acknowledge the receipt of your letter dated the 14th Februar, 1902, re S. W. 1/4 14 - 20 - 29, - 4, Homestead of the late Charles McLeod, Okotoks, Alberta, and to report that I visited this place on April 23rd and found improvements thereon, which had been put there by the late Homesteader, as follows, viz,-

Frame house 16 x 16,	value,	$125.00
Stable, 16 x 26	"	100.00
Board corral	"	50.00
Well	"	30.00
20 acres breaking,	"	60.00
2 1/2 miles of fence	"	150.00

I made a careful enquiry as to the residence duties performed by McLeod and learned that he went into residence some time during the fall of 1894, and that he had no other regular place of abode up to the time of his death which was on Dec. 7th 1901.

He was in poor health during all the term of his residence upon the place and being a single man and being a single man when he became ill enough to require attention he was in the habit of taking up his residence temporarily, for short periods of time with his father who lived in the immediate vicinity, and then returning to his homestead. I am convinced that he performed sufficient residence and other duties to entitle him to patent.

MEMORANDUM:-

This is an application for patent made by A. McLeod as legal representative of the late C. McLeod. It is in proper form in all respects, and there is also a favourable report by Homestead Inspector Bryant, made in July last.

The file, however, shows that in 1889, the late homesteader appeared before the Agent at Calgary to make application for patent, and at that time the Agent was satisfied that the duties had not been performed, as it appeared that most of the residence had been performed with a brother of the homesteader, on Section 15 in the same Township. It seems to me that if patent is now to issue it should be upon the strength of residence performed by A. McLeod on adjoining land owned by him, and in that case the Agent should certify that A. McLeod is the owner of the land upon which he has lived. If you are not able to pass the application on the strength of residence claimed on behalf of the late homesteader, it will be necessary to obtain a supplementary statement from the legal representative, setting forth the residence that he has performed since the death of the homesteader, and also the breaking and cultivation he has performed in each year. The necessary certificate of ownership might be endorsed upon the supplementary statement.

Respectfully submitted,

This, however, brings up the point of illegal fencing of the public domain which was alluded to fully in my annual report, and I would suggest it might be well that the Minister's attention should be specially directed thereto, as it is possible he may consider it advisable to take steps to remedy the existing state of affairs and prevent any further trespass of a similar nature.

SMALL POX

In the month of November a case of Small pox developed in Winnipeg in a party of newly arrived Ruthenians. All necessary precautions were at once taken to prevent the spread of the disease, and infection was by this means restricted to five persons altogether. Of these one, the patient first attacked died, the others recovered. The Immigration Hall was placed in quarantine for nearly four weeks, during which time the inmates, consisting of 75 persons had to be fed and provided for by the department. Mr. James Reid, caretaker, remained with them, and the result of his management was most satisfactory.

In this connection, I would lay particular stress on the fact of this case having developed after arrival here, and the necessity for a strict enforcement of the quarantine regulations at the point of debarkation.

MIXED FARMING

There is abundant evidence throughout the country that settlers have adopted the principle of mixed farming with advantage to themselves and the community at large. The operations of the creameries have been greatly appreciated and butter has been exported from Manitoba and the North-west Territories in large quantities to British Columbia, and even to Japan. There is, moreover, a steady demand for creamery butter in the larger towns far in excess of the supply. Elsewhere will be found figures as to the quantity produced. It has been shown that under proper management a return of $40 may be counted on from each cow, and an impetus has been given to the improvement of breed, which the exhibitions throughout the country are doing much to encourage. The day is not far distant when scrub cattle will have disappeared and their place taken by a good grade, costing less to keep and yielding richer and more abundant milk, and turning out steers for beef which fed on our nutritious grass will prove profitable to the raiser and satisfactory to the consumer. From every agency reports are being received of the amount of stock being shipped to the European markets, and this trade is steadily on the increase. Heretofore our settlers have to a great extent imported pork and bacon. The raising of pigs is now receiving attention, and farmers find themselves able to dispose of a surplus each winter. Curing establishments are springing up, and a supply of excellent bacon is placed on the market, although at present in small quantities. The factories still find it necessary to import pork from the east, but this no doubt will cease shortly.

There is a wide field open to the North-west farmer in the raising of poultry. It has been long since demonstrated that ducks and fowls succeed here with a minimum amount of care, but there is very little done towards supplying the home markets. The inclination is to grow wheat, and in doing so many lose sight of the value of a good poultry yard. Every winter a large quantity of poultry is imported from the East, and there is a demand in the larger towns of which our settlers should avail themselves. One difficulty appears to be the proper preparation of the birds, which are not handled as carefully as in Ontario. If farmers could only be got to recognize the valuable adjunct they possess in poultry, they would devote some of their energy to it.

WATER.

The want of water in parts of Assiniboia continues to seriously restrict farming operations and is a source of discontent with many foreign settlers who have taken up lands in localities where the deficiency is most felt. It is hoped that the Territorial Government will continue its efforts to furnish adequate wells by means of boring machines.

I have the honour to be, sir, your obedient servant,

H. H. SMITH, *Commissioner*

COMMISSIONER'S OFFICE,
WINNIPEG, January 1, 1897.

No. 2.

OFFICE OF THE SUPERINTENDENT OF MINES,
CALGARY, ALBERTA, 31st October, 1896

SIR,—I herewith have the honour to report through you, for the information of the Minister of the Interior, for the departmental year ending this date.

Between the 1st and 13th November, 1895, I visited Winnipeg, Maple Creek, Lethbridge and the Brown Ranch Company.

18th November to 20th December. The greater portion of the time inspecting stock-watering and shelter reservations.

January 1st to 22nd, absent in Winnipeg Acting Commissioner during your absence.

February 1st to 6th, visited Kamloops, to report upon certain dispute concerning right to the use of water for irrigation purposes.

February 23rd to 29th, attended Immigration Convention at Winnipeg.

June 18th to 20th, visited Revelstoke in connection with squatters claims at that point.

July 4th to 11th and 22nd to 25th. Inspecting portions of the ranching district.

August 3rd to 4th, visited Hecellewaet in connection with a dispute regarding the purchase of land at that point.

19th of August to 1st September, absent on personal business.

12th September to the 21st, visited Selkirk, Winnipeg and Whitemouth, at the latter point to report on matters arising out of survey and right of way for the Canadian Pacific Railway Company, and water supply for operating the railway at that point.

CROPS.

Throughout the western portion of the Territories (you will, no doubt, have reports from parties who can speak from personal knowledge as to the remaining portion of the Territories) the crops during the past season were very good, and the greater portion was harvested in good condition. Hail destroyed the crop in some few localities and in the most southerly portion of Alberta, owing to very dry weather in the latter half of June and first half of July, it appeared that except where irrigated the crop would be a total loss. About the middle of July, the weather turned very showery and cool, which continued through the greater portion of August; the consequence was that the grain took a second growth, which made it very late, and although a good deal of feed may be obtained, the quality of the grain will not be first class. These conditions did not obtain to nearly the same extent in Central Alberta, and the result there is a good crop both as regards quantity and quality.

IRRIGATION.

Mr. Dennis, the Chief Inspector of Surveys, who has charge of all irrigation surveys and matters appertaining to enterprises connected with irrigation, will no doubt report fully on this head, both as to works proposed, in course of construction and completed, and the crop results from irrigation, so that it is only necessary for me to state briefly that the outlook for irrigation enterprise is very bright, only curtailed by difficulty of obtaining the necessary capital; but the results of the works now constructed fully warrant the carrying into effect of the various irrigation enterprises contemplated. It might be well to add that the wisdom of initiating the irrigation surveys two years ago and carried on since is fully sustained by practical demonstration. As the best

endorsement of such a policy may be noted the action by the Irrigation Branch of the United States Geological Surveys Department of one of the features initiated by Mr Dennis, such having been carried into effect by an Act of Congress of the last session notably the establishment of bench marks connected with the system of surveys, thereby giving precision and, at the same time, convenience for reference. This course has also met with the emphatic approval of the whole of the scientific press which has alluded to it. Very flattering notices of our Irrigation Act have from time to time appeared from some of the very best authorities in the United States, notably from such men as Elwood Mead, Esq., Chief Engineer of Irrigation for the State of Wyoming, than whom precisely no one has given the general subject so much study, or is so well qualified to speak with authority. He is largely the author of the Irrigation Laws of the State of Wyoming, which laws are undoubtedly better than those of any other State. He deplores that this State has not more closely conformed to our system. It appears difficult, however, sometimes impossible, to induce legislators to go far enough in the first place to protect both the public and those using or desiring to use the water, secondly, to control it in such a way that it will give the greatest benefit to the largest number, and by clearly defining the rights of the various parties, prevent litigation, which latter evil is the greatest obstacle in the way of successful irrigation on a large continent, in many districts it has totally blighted all such enterprises.

INCREASE OF THE GRAZING AREA THROUGH IRRIGATION AND SYSTEMATIC WATER SUPPLY.

In a report of mine made many years ago, I drew attention to the feasibility [illegible] from a perennial and engineering point of view of diverting the waters of the High River into the Little Bow, thereby increasing the volume of the latter, and also the passage tributary thereto by at least one million acres. There is not a portion of the grazing districts in which the natural conditions are better adapted for stock than along said river. It is generally conceded by cattlemen that during the small portion of the year when that district is sufficiently watered it is stocked as not more than [illegible] impossible to keep stock out of it. The period may be computed as not more than [illegible] months of the year. These lands will not become occupied for many years, except perhaps under a system of irrigation which is unlikely to come into effect for a long time yet, owing to the small volume of water cheaply available which would render such a scheme doubtful at present. But there is no doubt as to the feasibility of providing sufficient water for stock throughout the grazing district tributary thereto, and that at a very moderate outlay of capital. All that would be required is merely to turn a certain quantity of the water of the High River into the east of the Little Bow and to regulate it so that there would be [illegible] enough for stock watering purposes throughout the entire season. It might be that a company could be organized, which would undertake the scheme. No inquiries of any nature have been made as to the advisability of making certain tests in order to [illegible] would probably be done any interesting [illegible] would undertake the [illegible] the amount of recompense might be [illegible] the lease before the expiration of the [illegible] granted if it should be found [illegible] ways to cancel

Some [illegible] ago I directed attention [illegible] of the North [illegible] in suggesting [illegible] meat, and I [illegible] as [illegible] the [illegible]

I may [illegible] the past few years I have met [illegible] I am much [illegible]

The aid contemplated to be furnished by the Government to dairying enterprise will, it is anticipated, greatly stimulate this industry, one to which the country is to a marked degree so well adapted. To those not conversant with the conditions, it would seem almost inexplicable why the foothill country had not developed much faster on those lines. Want of capital and ignorance of the subject to the vast majority who have the labour within their family, to attend to cows, has prevented them embarking in the enterprise. To those who have the capital the labour requisite is difficult to obtain and expensive to retain. Further, the small stockowners are doing very well with their cattle in allowing the cows and calves to run together, and when it is considered that a calf in the autumn is worth $10 to $12 (as high as $17 has been paid for first-class ones) it is not surprising that they have not undertaken dairying. It might be briefly noticed that by some it is conceived that the introduction of irrigation on a considerable scale, coupled with the hamlet system of settlement is probably the system of settlement best calculated to succeed the dairy products and also pork and poultry raising would be greatly stimulated. In short, the conditions which would then be brought into being would make those irrigated portions ideal locations for the purposes named.

HANDLING OF HOGS, DAIRY AND POULTRY PRODUCE, ETC.

There is a movement now on foot to establish a concern of considerable magnitude and one of very great advantage to at least the western portion of the territories. I refer to the establishment at Calgary of a pork curing establishment, including also the handling of poultry, dairy products, vegetables, fruits, etc.; also possibly the slaughtering of beef and mutton. It is proposed to work out the scheme somewhat as follows. There are at Calgary now, probably, the best facilities for slaughtering, storing and shipping dead meat, combined with the necessary cold storage for the same, existing at any point in Canada west of Lake Superior. Everything is constructed upon the most modern approved principle. There is also a fairly well equipped pork curing establishment in connection therewith, which, if the scheme goes into effect, could be cheaply enlarged to any reasonable extent; certainly to as large a one as will be necessary for some years.

The principal object of the scheme is the pork curing business, thereby giving a good and continuous market at all seasons of the year to all hog product.

It is intended to have small cold storage depots at some of the larger points throughout the western territories, so that perishable articles such as butter, eggs, etc., may be collected and shipped in carload lots; at the other smaller points, collections can be made as often as twice a week by refrigerator cars, and stored at Calgary. At points in British Columbia, such as Nakusp and Revelstoke, cold storage warehouses are also to be erected which will be supplied in carload lots, and from them distributed wherever there is a demand, thus preserving to the highest degree attainable the quality, and minimizing the freight charges. The company proposed is known as the Stone & Co., Limited, capital $50,000, and some of the best men in the district have identified themselves with the enterprise, and it would appear that the outlook for success is very promising. It is also more than probable that a considerable dead meat trade between this point and many portions of British Columbia by the establishment of this enterprise could be successfully prosecuted during a large portion if not during the whole of the year.

PRAIRIE FIRES.

An attempt is being made by the undersigned to obtain as far as possible accurate data regarding the probable loss during the past season by prairie fires. I had hoped to have had it in time for this report, but it is not available. I trust it may be shortly. The immediate object in view is this. Assuming prairies fires could be largely or wholly prevented, to what extent could the cost of so doing be justified.

HAIL INSURANCE.

If no steps have been taken by the Manitoba Government and that of say North and South Dakota where the conditions are somewhat similar to those of the North-west, to collect statistics regarding damage by hail, would it not be well that such should be obtained? If those statistics, fairly reliable, were obtained, extending over ten years, a scheme of hail insurance might be instituted, which would be fairly equitable and safe for the company and the insured. It would probably be found that some districts enjoyed a fair immunity from loss, while in others the reverse was the case.

CATTLE.

The past winter and spring were up to the 1st March all that was desirable for cattle ranging, excepting that almost the entire month of February was too warm. The result was that cattle shed their hair, and as the months of March and April proved very cold and stormy, although the total loss was small the calf crop was no doubt very seriously injured and the cattle ran down very low in condition. From the middle of May to the 1st July, the flies were very much worse than they had been during any season for the past ten years. The result was that beef fit for shipment was from one to two months later than usual, and when shipments were fairly started, between the telegraphers strike and the heavy movement of grain, the cattle were not shipped out as rapidly as they have been heretofore, so that the closing shipments to Europe were very late. As will be seen from the statistics, there is a considerable trade with the Kootenay and other districts in British Columbia, a trade which is likely to greatly develop and which will bring in its train a considerable amount of winter feeding. This trade will take a class of beef cattle, good quality in itself but not of a class for which there is sufficient demand in the English market, to enable good prices to be paid therefor on the range, so that such openings of that class will prove of very considerable benefit for our stock growers. Fortunately, that market gives promise of a very rapid and permanent increase in its requirements.

So far beef supplies for the mining points in British Columbia have been supplied by Canadians, and I think largely the cured bacon, mutton, poultry and probably a considerable portion of the dairy products have come from Washington and Oregon. The construction of the Crows Nest Pass Railway would throw all the beef supply required in east and west Kootenay, into our grazing territory at prices likely considerably increased and might enable it to largely, if not wholly, supply the balance, that is mutton, poultry and dairy products, a condition that is extremely desirable should be attained. The prices obtained on the range during the past season were about the same as during 1895, namely, $40 to $42.50 for four year olds, good cows and 3 year olds $33.00 to $37.50. Others $27 to $32. They were probably classified considerably closer that is with a higher average in each class this year than the year previous. There were shipped out of the Territories west of Moosomin during the past year the following beef cattle:

To Great Britain	17,935
To British Columbia.	
Stockers shipped in	1,931
Driven into Southern Alberta from Northern Alberta and Saskatchewan	16,000
Driven into Southern Alberta and Western Assiniboia from Eastern points	2,500
	560

Of the 20,660 cattle shipped out probably 12,000 came from Southern Alberta and Western Assiniboia, of which Southern Alberta would probably furnish 85 per cent. There was shipped from Southern Alberta subsequent to 31st October, probably 3,660 head of beef for England, and 1,000 shipped, or head for shipment, to the mining districts of British Columbia.

If the quarantine regulations could be safely done away with, the beef growing of the ranching portion of the Territories would become largely devoted to maturing, breeding would largely cease. It is much better situated for maturing than for raising breeding. Care, however, is necessary in making regulations on this head to prevent eating out by an influx of American cattle. The probability of eating out is already manifested most pronouncedly along the Milk River in Eastern Alberta and Assiniboia and to the south of the Cypress Hills and Wood Mountain, and in a few points to the north thereof. On the 5th November, a meeting was to be held by the stockmen regarding this subject at Maple Creek, which the writer purposes attending and reporting upon fully. The framing of the regulations to prevent the eating out of the grazing districts and protect our own stock interest against cattle being run in from the Western States, has been the subject of a recent report, but which is too lengthy to be more than referred to in this.

HORSES.

In my report of 1894 I called attention to the probability, if horses were allowed free grazing, that a considerable injury to the grazing industry would ensue. I am happy to be able to state in that portion of Southern Alberta lying north of Township 9 and south of Township 24, there are to-day probably not 30 per cent of the horses there were two years ago, and the owners are striving as fast as possible to exchange them for cattle in Manitoba and other portions of the Territories. What remains are of a much better class than those which have gone out. It is unfortunate that the remaining portions of Alberta and Western Assiniboia have not also tried to rid themselves of this comparatively worthless stock. I still think that one of the best courses to adopt regarding horses is to place a high rate for pasturage. It would at least stimulate a riddance of the inferior animals, as it would not pay to keep them owing to the cost of pasturing. At present, it practically costs nothing, and they destroy by eating and tramping very considerable pasturage which might and will no doubt be very valuable in connection with the pasturage of stock which possess some value. There were taken out of the portion of Alberta mentioned during the past twelve months probably 4,000 horses, the majority of which were exchanged for cattle mostly in Manitoba. Several carloads of horses have been shipped to Belgium for military purposes, and it is thought with fair prospect of profit. A heavy Clydesdale brings a fair price, being worth at maturity, when weighing 1,400 to 1,600 pounds, about $75. It is difficult to understand why parties who were breeding largely Clydesdale and had a fine stock of mares and stallions should abandon the business because sales were slow or well nigh impossible for a year or two. All the expense had been incurred and for the future and until fresh stallions were required, horses could be bred and reared till four years of age for $20 apiece; but they seem to have become panic stricken and promptly shut down on breeding.

INFERIOR HORSES BROUGHT IN BY ALLEGED IMMIGRANTS BUT REALLY HORSE DEALERS.

There is a traffic carried on and has been for the past three years, to a very much larger extent than is generally thought, namely: a man brings a band of horses to the boundary. We will assume he has 80 head. A. Obtains four others and with himself obtains free entry as an intending settler. The men will frequently disappear as soon as entry is effected. Before possibly he has left the boundary ten miles, he commences selling, and when sold out, returns and starts another band in charge of another man. Now, if this practice can be stopped without throwing an obstacle in the way of immigration it would be well to do so. The practice as carried on is demoralizing to the trade.

SHEEP.

The low price of wool, 7 to 8 cents per pound, seems to have placed a great damper on this industry, and coupled with the compulsory slaughter of sheep in England at

port of di-embarkation, owing to the scab scare, has prevented much increase in this industry during the past season. If the breeders would stimulate the local market, furnishing good mutton at reasonable prices, it would be, no doubt, a great advantage. Between the butchers and breeders, the people in the country pay from 10 to 15 cents per pound for mutton, and that usually very inferior. Often aged ewes which have lost their teeth and probably would die ere another spring. Why such a price should be maintained it is difficult to see.

The mutton for Kootenay and most of British Columbia has heretofore been largely if not wholly obtained from Washington and Oregon because of two conditions: First, the low price of sheep in these states; secondly, their more ready access, which means lower freight rates to the points to be supplied. With a slight rise in the sheep market in the United States, coupled with the construction of the Crows Nest Pass road, the trade would be largely, if not wholly, supplied from our territories. If such should be the result, the benefits to the territories, through the stimulating of the sheep industry, would be most marked.

SHEEP VS. CATTLE.

There has been some grumbling by cattlemen against sheep in the Maple Creek district. The grievance as yet is a very slight one, but if not looked after might soon become a serious one. It is certain to culminate sooner or later unless some provision be made for keeping the two classes grazing on the public domain separated. There has been in modern times no considerable extent of grazing territory at all suitable for both classes of grazing where such disputes have not been hot and frequent. In many cases in the United States and some in New Zealand and Australia, these disputes have led to loss of both human life and property, and care should be taken if possible to prevent any conflict, or, if not possible, to minimize the same.

HOGS.

There is probably no investment which will make such speedy and remunerative returns as a judicious expenditure of a few hundred dollars in the purchase of well bred boars to be distributed among those breeding or being in a position to breed pigs in Alberta. This is particularly applicable to Northern Alberta, and it may be also to portions of Saskatchewan and Assiniboia. Pigs increase very rapidly, and even if the female is not first class the breed will rapidly be improved by a judicious crossing with well bred mates. Each dollar thus invested would yield a hundred fold within two years. It costs less to rear and feed the well bred pig up to nine months of age than an inferior one and at that age the well bred one will be worth at least double. Further, the trade in pork has assumed such a phase that pigs must be specially bred to meet the same.

BULLS.

It is unfortunate that such an inferior class of cattle predominates in Northern Alberta. The local press, particularly the *Edmonton Bulletin*, drew attention to this subject in a very pronounced manner, but so far as can be observed from this point no steps are taken to improve the same. Until he saw it himself, the writer believed that there were no such inferior cattle in America as have been brought into Northern Alberta by the settlers from Nebraska, Kansas, Oregon, &c. They probably were so poor that they could only be disposed of at a very small figure there, if for anything at all. Certainly they were not worth bringing with them, and nothing has been done since their arrival to improve them. The settlers as a class are not cattle breeders. It would cost them very little to buy old bulls from off the large ranches, bulls too old to be of value on the range, but fit for two or three years of breeding of say 20 to 25 cows. These bulls could be bought for from $20 to $25 apiece and they are animals as well

deposits of coal near the route of that railway through the Rocky Mountains would prove valuable for coking purposes. So far as can be learned, no thorough test, (one by ovens is necessary) has yet been made. If it does not prove as good as hoped for, a large supply of the necessary coals can be found at no considerable distance therefrom, so that with the construction of that railway, a plentiful supply of coke and at cheap rates is assured for the Kootenay district, which must prove a strong factor in its profitable development.

PLACER MINING.

During the past year considerable discussion has been going on regarding the possibility of profitably working the benches in the valley of the North Saskatchewan River for gold. This is the only point in the Territories where any considerable attention has been paid to placer mining; what has been accomplished has been solely by the old style of hand washing. The various scows and dredges devised have not as far as I can learn been successful. It is probable that the benches in the valley alluded to would prove very profitable if water in sufficient quantities could be led thereto under pressure as has been done in many other places. The fall to the river, however, is so slight, that in order to obtain head enough it would be necessary to take out the ditch a hundred miles above where it was required, which would be altogether too expensive a matter. There is therefore no immediate prospects of working it out by means of hydraulics. However, it is possible machinery may be had which will profitably extract the gold, and it is probable many efforts will be made to bring such into operation during the coming season.

QUARTZ MINING.

The attention which has been directed particularly to the Kootenays in British Columbia has created quite a large army of prospectors which will increase rapidly year by year so long as the prospects are favourable, and there would seem to be no question as to that. The field of operation for these prospectors is rapidly widening and extending, and during the latter portion of the past season a considerable number had crossed the summit and were operating on the Territories' side of the water shed of the Rocky Mountains, so that we may anticipate that if there proves to be minerals on the east slope, and I can see no good reason why there should not be, valuable discoveries may be made within the next season or two.

STOCKWATERING AND SHELTER RESERVATIONS.

The charge is frequently made that the area of these reservations is excessive and that there are many more of them than necessity calls for, also that many of them have no water at all. Of course, any one desiring to settle would naturally like to do so on a spring or open stream, and when a request is made it is invariably accompanied by the statement that there is no stockwatering at that point, or that, if he is allowed to settle there, he will take good care that there is plenty of access for stock to water. Regarding the first assertion, it is in 95 per cent of cases erroneous; but even if it were true, it would not necessarily follow that the reservation should not be maintained, for though the intending settler personally would not prevent stock travelling, grazing and watering as was desirable, he might be succeeded in a very short time by one who would do the reverse, and it is anticipated that within the next decade there will be four times the number of stock that there is to-day, and these reservations have been made with that end in view, so that although there might be an excess of them at the present time such would not be the case a few years from now, so that if even the stockmen, large or small, in any neighbourhood petitioned to have the number or area of these reservations reduced, it might not be good policy to grant their petition. I find that the total area of the grazing district in Alberta, south of township 35, may be esti-

bred as any in Canada. The large ranchmen would encourage this trade, taking young cattle in lieu, thereby the large ranchers would in the near future be able to obtain a much superior class of stockers than at present.

WOLVES

The action of the North-west Assembly in paying a bounty for wolves proved very good policy, and it is regrettable it has not been more generally adopted and not continued as at present to about thirty per cent of the stock grazing districts. Probably the advisability of reverting to the policy of making it applicable over at least the whole of the grazing portion will shortly go into effect. Many hundred wolves were destroyed and a large proportion of the bounty was paid out to Indians which, no doubt, was of great benefit to them, as the Indian who will engage in that pursuit has sufficient industry in his composition to warrant the advisability of and being given him. It is probable that each wolf killed means about two calves or colts, so that it is certainly a wise expenditure of $5 for destroying one.

COAL MINES.

This industry is slowly progressing. Considerable coal was shipped from Canmore to the trail smelter to be utilized in roasting, but it is rumoured that the heat proved too intense for the kind of furnace adopted and that the concern has changed its grates and is using wood. The use of wood, however, can only be adopted for a comparatively short period owing to the cost of procuring a supply. The consumption of the Canmore coal is steadily increasing for railway locomotives and stationary boilers, and retains its high reputation in that regard. At Anthracite, owing to the increase in price of American hard coals in Eastern Manitoba, the output has been considerably increased. With the railway connection made between the Calgary and Edmonton Railway and the Canada and Great Falls and the latter changed to a broad gauge, as seems probable within the near future, a very large and profitable market would no doubt be obtained in the North-western States.

For the year ending 31st October, the coal output was about as follows:

Lethbridge	120,000 tons	
Canmore	60,000	
Anthracite	20,000	
Edmonton and Okotoks	4,000	Estimated, of which 675 were
Knee Hill	2,000	" shipped away by Ry
Souris	9,000	"
Other points	10,000	"

At Lethbridge the output has considerably increased, both in the consumption in Manitoba and the Territories, and also at Great Falls, Helena, Butte and Anaconda in the United States.

The output from local mines is increasing from year to year. The Edmonton coal mines probably lead by a very considerable quantity, but as these are no means of ascertaining the exact quantity of output, it must be only an estimate. Knee Hill Creek mines peniscitly come next and then the various points enumerated in previous reports.

COKE

That there exist large deposits of coal suitable for making a high grade of coke along the foot hills of the mountains, from some distance north of the Bow River, south to the Old Man's River, there can be no doubt, but the manufacture of such has not been called into being on account of lack of capital, which naturally hesitates awaiting to see whether the Crows Nest Pass Railway will be constructed, and whether the

mated to contain 17,438,240 acres, and the area now reserved is equal to 14,000 acres. It will thus be seen that these reservations only represent $\frac{1}{5}$ of 1 per cent of the total area of the grazing district. Through the construction of irrigation works and the raising of winter fodder thereby, and realizing that the capacity of our ranges is only limited to the extent to which the winter fodder is available, he who predicts an increase of our ranch stock by four times its present number within the next ten years could not be called over sanguine. The second statement usually made, namely, that the applicant will see that free access is given stock to water on the land he desires, could not be entertained for a moment. It is not in human nature to stand by and see range cattle running down your fences without taking measures to prevent it and that means ones', running them off with dogs, and in one run of a mile or two more flesh is lost than can be put on in two weeks. Frequently cattle are absolutely ruined from the effects of dogging them. Of course if no fences were put up by these squatters and no dogs kept, no great injury might be done to the cattle by reason of a squatter residing near a spring.

Range cattle will not go near any place where dogs are kept and every settler keeps one or more. Another thing is, that during hot weather it may be observed that after drinking they invariably lie down, and as it is the habit of range stock to graze in considerable bands, from four up to several thousand, a very considerable area is required to allow cattle free access to the water; otherwise, the stronger animals will prevent the weaker ones from getting at it, and as they will not graze any considerable distance away from water during hot weather, the necessity for larger reservations becomes still more apparent, as a small area would soon be completely eaten off and the quality of the cattle would thus deteriorate instead of improve. The whole extent of what is known as the grazing district of the North west territories would be valuable for cattle grazing were it not for the scarcity of water in places at certain seasons of the year. These parts are for that reason of very little use, at least the value is not one tithe of that with a plentiful supply of water at any time. It is, therefore, the duty of the department to preserve as far as possible those watering places that are still available.

As to the charge that many of these reservations contain no water, this may be perfectly true in some cases, and still they may be extremely useful for the purpose of shelter and as furnishing access to valleys and bottoms where pasture and water is abundant. Such is absolutely essential unless the industry is to be completely annihilated. It is nothing unusual after a storm has been raging for a few hours to see large herds of cattle huddled together in narrow valleys and it certainly does not follow that there should be plenty of room, otherwise the stronger will drive the weaker animals to the wall and either totally kill or seriously injure them. Many of these reservations contain neither shelter nor water in themselves, but by reason of their position they hold the key to valuable pasturage, water or shelter. In the Porcupine hills and other grazing districts, the surface of the ground assumes an almost mountainous character, and although in the summer time cattle will graze up and over the ridges of these hills into the valleys beyond, in the winter time they will not do so, owing to the snow drifting on the east and south slopes immediately under the crests to such a depth that they cannot cross, therefore the only means of access to the valley under such conditions is by following them up. These valleys are most valuable for stock during hard winters, in fact, in any winter and while severe storms are raging they are essential to prevent the loss of large numbers. There are many points in these hills where a single settler taking up his location as is particularly desires it would mean the loss in a hard winter of from 250 to 1,000 head of cattle. Placing their value at $25 each, it will illustrate the damage done. It may naturally be asked why is the small stockman so objectionable to the larger one? The answer is this. The large man allows his stock to roam at large, therefore, in his own interest, must keep the range in such a condition, that cattle will leave the finest possible access to all parts thereof. On the other hand the small man for the first few years, and until his band becomes of such size as to make it necessary to do the same as the former, lets them run in a narrow valley or around some fine spring or other open winter water where they are herded in proximity

SENT OUT
PRINTING

There is one thing about the report of 1885 which strikes me rather forcibly, namely, that at this time it was stated that nearly all the settlement was along the bottoms of streams. This held good at the time and those whose interests were bona fide intended to devote their energies chiefly to the growth of cereals and vegetables, the demand for which exceeded the local production, and the prices were good. It was then thought that the bottoms were the best points in which to conduct the experiment; experience has shown that such an idea was a mistaken one, as the benches owing to a more retentive subsoil require not more than one-half the moisture the bottoms do. All have now abandoned the idea of making a livelihood by such means except through irrigation. Those who since desired to squat on springs proposed to make their livelihood wholly out of stock.

All of which is respectfully submitted.

I have the honour to be, sir,

Your obedient servant,

WM. PEARCE,

Superintendent of Mines.

DEPARTMENT OF THE INTERIOR,
OFFICE OF INSPECTOR OF AGENCIES,
OTTAWA, 31st December, 1896

SIR,—I have the honour to submit, through you, for the information of the Honourable the Minister of the Interior, a report on the work of my office for the past twelve months.

On 28th February I left Ottawa to make my half yearly inspection of the agencies of the department, after having arranged the plans and provided for the erection of the Dominion immigration building at Halifax

I was absent from Ottawa until the 23rd May.

During my absence I inspected the Dominion lands and Crown timber offices at Calgary, New Westminster, Edmonton and Prince Albert, and the Dominion lands offices at Kamloops, Wetaskiwin, Regina and Winnipeg. In addition to the inspections I arranged for the transfer of records from Regina to Maple Creek, and for the opening of an office at that point. The opening of this office resulted in increased business and revenue to the department.

As the immigration season was advancing I returned to Ottawa with the intention of inspecting the immigration buildings and offices at Quebec and Montreal; but was unable to do so owing to the Minister's desire that I should take charge of Banff park during the superintendent's absence. I left Ottawa on 13th June to carry out his instructions.

My work at Banff was concluded in August, and to save expense in returning to Ottawa I made my fall inspections and visited the offices at New Westminster, Kamloops, Calgary, Edmonton and Red Deer. The Lethbridge agent was absent on leave and I had therefore to pass his office over.

From Calgary I went to Maple Creek and inspected the office there. I then inspected the offices at Estevan, Regina, Brandon, Minnedosa, Yorkton and Lake Dauphin.

In some districts, owing to the train service, it was necessary to put in many hours during the night and on Sundays to make connections

As a rule I found the outside service of the department doing its utmost to keep matters in an efficient state.

On account of the incomplete period covered by the statement of work which accompanied my report of last year, two statements are submitted covering the calendar years 1895 and 1896, from which it will be seen that though there has been a falling off in entries there has been a considerable increase in correspondence and other work.

In addition to the inspection work and matters referred to me for examination and report, two thousand seven hundred and eleven returns were examined and checked

I have the honour to be, sir,

Your obedient servant,

J. M. GORDON,
Inspector of Dominion Lands and Immigration Agencies.

TIMBER, MINERAL, GRAZING AND IRRIGATION

DEPARTMENT OF THE INTERIOR,
OTTAWA, 5th FEBRUARY, 1897

A. M. BURGESS, Esq.,
Deputy Minister of the Interior,
Ottawa.

SIR,—I have the honour to submit the sixteenth annual report of the Timber, Mineral, Grazing and Irrigation branch of the Department of the Interior. Statements prepared by Mr. Frs. Lover, Cash-keeper of this branch, show that the revenue derived from the Crown timber, grazing, hay and mineral lands, but exclusive of sales of mineral lands, during the calendar year 1896, amounted to $88,801 25. The revenue for the calendar year 1895 was $42,334 82. The above amounts include the dues received for timber, grazing, and hay cut on school lands.

The statements in question, lettered A B and C, together with report of the Crown timber agents at Winnipeg, Man., Calgary, N.W.T., Edmonton N.W.T., Prince Albert, N.W.T., and New Westminster, B.C., are appended hereto.

For the sake of reference and comparison, statements lettered D and E showing both by departmental and fiscal years the revenue received from timber, mineral, grazing and hay lands from the year 1872 up to the 1st of January, 1896, not including sales of mineral lands, have also been prepared and will be found at the end of this report.

The statements referred to in the preceding paragraph do not include the revenue from school lands, but statement lettered E appended hereto shows the revenue from this source for the fiscal year 1895-96, and statement lettered C shows the total revenue up to the 30th June, 1896.

The total revenue of the Winnipeg office for the calendar year 1896 amounted to $36,349 15, being an increase of $4,350 06 as compared with the revenue of the corresponding year.

The prices of pine lumber and spruce [illegible] the Winnipeg agency were $13 00 and $17 00 per thousand feet B.M. respectively. There are 22 mills in operation within the agency cutting under Government license.

The revenue received from the [illegible] Crown timber agency, during the year was $[illegible] 96, being a decrease of $[illegible]. Of the amount [illegible] a sum of $2,758 75 has been received as bonuses on [illegible] berths put up to public competition. The total area [illegible] was about [illegible] square miles, averaging a bonus of $264 50 per square mile.

The total quantity of lumber manufactured for the year amounted to [illegible] feet B.M. as compared with [illegible] feet B.M. for last year, and sold at the rates of $7.00 to $[illegible] per thousand.

There are 11 mills within this agency operating under license from the Dominion Government.

The total amount of dues collected within the Calgary agency amounted to $3,754 65, being a decrease of $[illegible] as compared with last year.

The price of lumber at Calgary was from $7 to $16, and at Edmonton [illegible]. The saw mills were operating with a [illegible] last year, owing to [illegible]

The total amount of dues collected within the Edmonton agency during the year amounted to $3,145.96, being a decrease of $272.77 as compared with last year. The price of lumber at Edmonton during the year was $8 to $16 per thousand feet B.M. The agent reports two saw mills in operation within this agency.

Lumber sold at Prince Albert from $8 to $25 per thousand feet. There are three saw mills in this agency cutting timber under license.

Saw-mill returns received at the head office gave the following quantities of build ing material as having been manufactured and sold during the year within the five agencies:—

	Manufactured.	Sold
Sawn lumber	34,817,909	804
Shingles	3,615,948	32,545,721
Laths	338,083	3,438,839
		450,375

One hundred and thirty six licenses to cut timber over a total area of 2,678.54 square miles were prepared during the year. The areas licensed in the province of Manitoba, the three provisional territorial districts, and on Dominion lands in the province of British Columbia, are as follows:—

	Sq. Miles
Manitoba	658·79
Alberta	1,308·15
Assiniboia	95·00
Saskatchewan	246·54
British Columbia	370·03

The number of applications received during the year 1896 to cut timber was 84, of which 56 were for licenses and permits to cut timber on Dominion lands in British Columbia territories, and the remainder to cut timber on Dominion lands in the North west

Within the past year forty eight berths have been cancelled, owing to the persons to whom they were granted not having complied with the provisions of the regulations, or by request of the owners thereof. The total area of these berths was approximately 1,193.31 square miles. The number of berths still in force under license and permit in the province and territories is 293, and on Dominion lands in British Columbia 155.

TIMBER, MINERAL, GRAZING AND IRRIGATION

The following statements show the timber limits either licensed or [illegible] licensed within the several Crown timber agencies.

MINING LANDS OTHER THAN COAL.

Returns from the Dominion land agents show that during the past year 135 entries were made for mining locations other than coal in Manitoba and the North-west territories. Of this number twelve entries were granted for quartz claims and 76 for placer claims in the Yukon district. Only twenty acres were sold during the year. The amount of $1,454 was received in payment of fees for entry and for the registration of assignments. The total area of mining locations sold up to the 1st of January, 1897, was 2,360 1/2 acres, which realized $14,608 21.

All minerals with the exception of coal and stone in Dominion lands within the railway belt in the province of British Columbia are administered by the provincial government under the mining laws of that province. This is in accordance with an agreement between the Government of Canada and the provincial government of British Columbia as set forth in Orders in Council dated the 11th and 28th of February, 1890. This agreement may be terminated at any time by either government. Under this agreement 1193.8 acres were transferred to the provincial government, and the total amount received therefor was $2,387.50.

Under authority of an Order in Council dated 25th of August, 1891, petroleum lands were withdrawn from the operations of the mining regulations. The area of a location containing mica was increased from about 20 acres to 160 acres under the authority of an Order in Council dated the 14th of February, 1896.

COAL MINING LANDS.

The number of applications received during the year was 33. The revenue for the year derived from the sale of coal lands was $248 26. The total area of coal lands sold up to the 1st of January, 1897, was 15,366 96 acres, and the total amount received therefor was $46,821.79.

IRRIGATION.

Immediately following the reports of the Crown timber agents may be found the report of Mr J. S. Dennis, chief inspector of surveys, who, in addition to being in charge of irrigation surveys, was delegated in the spring of 1897 to receive applications to divert water for irrigation and other purposes under the North-west Irrigation Act, to report upon the same to this department, and to perform all outside work required in connection therewith. Attached to Mr. Dennis' report is a bulletin issued by him of the results of irrigation last year which is very interesting and shows that the lands irrigated are on the whole producing large crops.

GRAZING LANDS.

The total number of leases of grazing lands other than school lands in force on the 1st January, 1897, was 236 covering an area of 257,983 39 acres.

41163A.

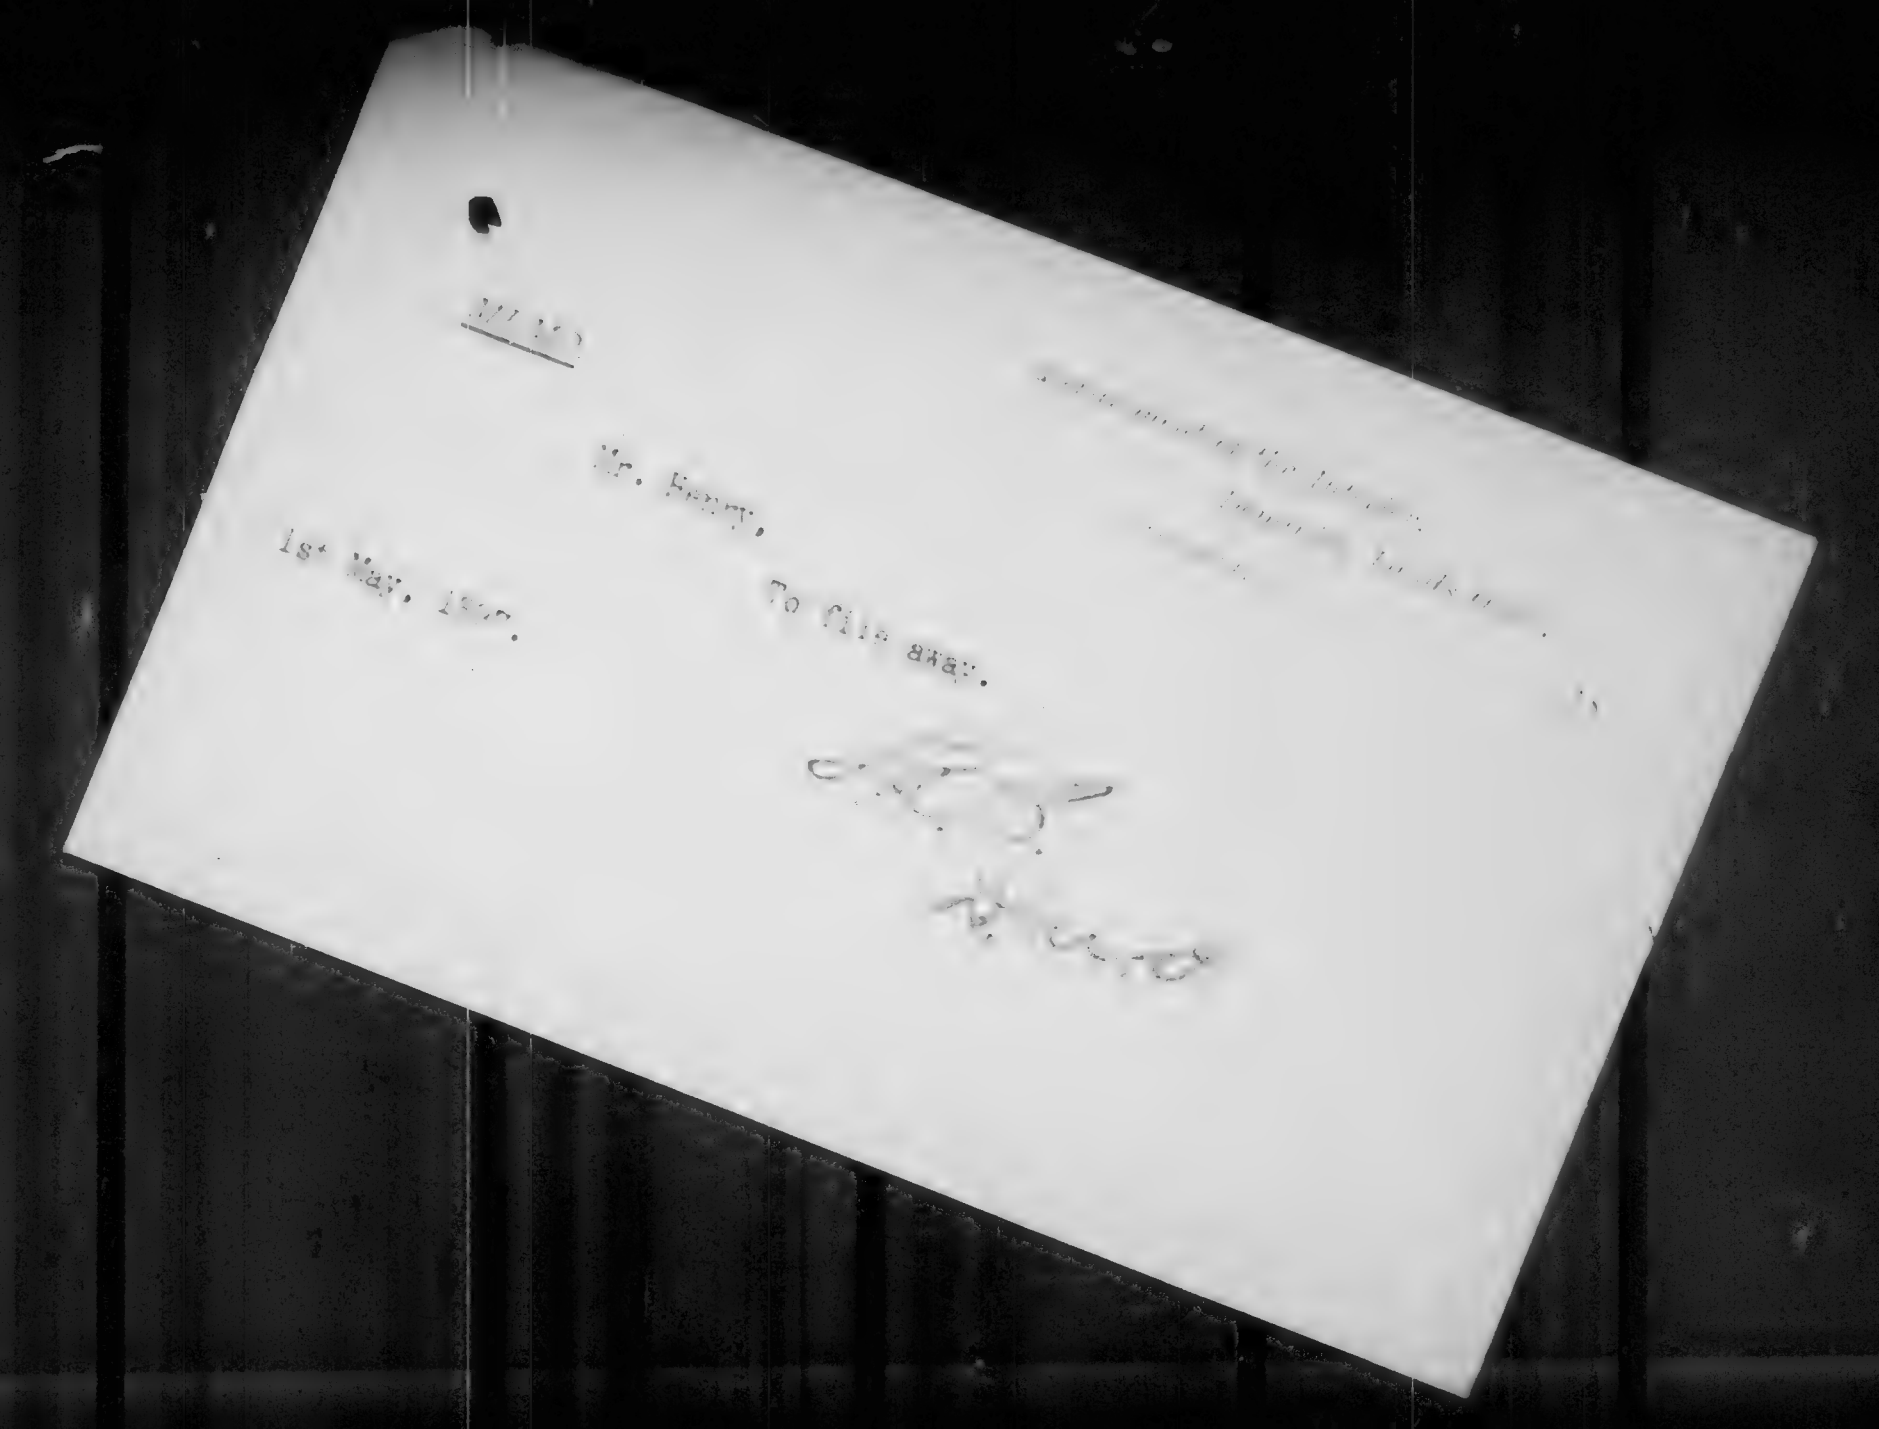

Ottawa, 21st April, 1897.

Mr. J. A. Cote,

Mr. W. Pearce asks in his letter of March 18 that his remarks in his annual report on the subject of illegal fencing by squatters be brought specially to the Minister's attention. Mr. Burgess held the case over until Mr. Pearce's report should be printed, and a printed copy is now attached. As I have no instructions, perhaps the papers had better be laid before the Deputy Minister.

The case of [illegible] relates to that of one [illegible], who was given permission to make a homestead entry, but who did not do so. The Agent at Battleford stated that [illegible] had left the country, and one [illegible] allowed to make entry for what had obtained as a homestead. In connection with what was claimed as homestead, [illegible] in some 250 acres, and it was in this connection that Mr. Pearce desired his remarks on the [illegible] subject to be brought before the Minister.

Sir:-

See letter from Mr.Burgess to me of the 24th ultimo Ref.410.034 re the Best Claim. I have made inquiries respecting Mr.Best's absence,which I find to be only a temporary one,in fact,he is expected back daily and no doubt upon his return,he will attend to his land matters. It might,however,be well if say within a month or six weeks he should not come forward,that the Agent should be instructed to communicate with him.

PAT. BCH.

Sir:-

See yours of the 10th instant Ref.No.410.034 stating that Mr.Charles Beebe had been granted entry for the S.W.t.of 14-4-29 west of the 4th Meridian. It may be that Mr.Beebe is entitled to entry for this land. The following is an extract from a letter received from Mr.Berry,the Postmaster at Yarrow,Alberta,dated the 9th ultimo.:

".....I beg to say that Mr.Best's trip to England is "simply a visit,and that he is expected back here sometime in "May. He left a man in charge named C.Beebe,and I believe "that he has not disposed of his claim in any way"

Mr.Berry's office is only about 2½ miles from the land in question.

Mr.R.Duthie,the Manager of the Alberta Ranche writes under date of 5th of April last,that Mr.Best left there last fall f for England; but is expected back daily,that he has not sold his claim or transferred it to any one that he knows of,nor does he think Mr.Best has any intention whatever of doing so.

Mr.C.Geddes writes dated the 3rd ultimo as follows:

".....I have heard from Best indirectly and he is return- "ing very shortly. As to his having disposed of any claim he

" claim he may have on the land mentioned. I am satisfied he "has not. Any further information you may require I will "always be pleased to give you".

Though Mr.Beebe may have resided on this land since 1883,the claim was originally held by a man named Morgan and I think Beebe was his partner, but I am not certain as to that. Mr.Best informed me that he had bought out all the interest of Morgan and associate,that is their improvements,they being merely squatters on the land. It is possible that Mr.Beebe has retained his interest in the land; but it occurs to me that it would be well if the Agent were instructed to place himself in communication with Mr.Best in order to ascertain whether he prefers any claim to the quarter section referred to.

Sir,

Referring to your letter of the 1st instant, Ref. 373835, to the Agent of Dominion Lands at Lethbridge, in which you state that there is no objection to his granting entry to Mr. Charles Beeby for the S.W.¼ of Section 14, Township 4, Range 29, West of the 4th Meridian, I am directed to draw your attention to Mr. Superintendent Pearce's report of the 10th August, 1896, respecting Mr. Best's claim as a squatter to this quarter-section, a copy of which report was sent to the Commissioner. It will be observed that it is stated in this report that Mr. Best has some 250 acres of Sections 10 and 11, adjoining, fenced in.

Though Mr.Beebe may have resided on this land since 1896,the claim was originally held by [illegible] Morgan and I think [illegible], but I am not certain as to that. Mr.Best informed me that he had bought out all the interest of Morgan and associate,that is their improvements,they being merely squatters on the land. In yours of the 14th instant Re'.'c.410.034 stating that Mr.Charles Deane had been granted entry for the S.E.¼ of 14-4-3rd west of the 4th Meridian. It may be that Mr.Deane is entitled to entry for this land. The following is an extract from a letter received from Mr.Perry, Dominion Land Agent at Calgary, Alberta, dated the 11th inst.:

".....I beg to say that Mr.Best's trip to Ireland is "purely a visit, and that he is expected back shortly. He left a man in charge named C.Deane, and I believe "that he has not disposed of his claim in any way"

Mr.Perry's office is only about 2 miles from the land in question.

Mr.Christie, the agent of the North Pacific Mining Co. writes under date of the 15th inst, that Mr.Best left there last fall for England; that he expected back early, but has not as yet returned; that his claim or property is in no way disposed of, nor does he think Mr.Best has any intention of doing so.

Dear Sir:- re the S.W.¼.of 14-4-29 west 4th M.

Mr.A.P.Best who is a client of ours purchased the improvements on the above ¼ section from Messrs.Burns and Duggan for $800 in we think January 1906. Burns & Duggan bought from Morgan and Cummings who had been in possession several years prior to survey. Mr.Best last year expended over $1100 in additional improvements.

We understand that one Charles Beeby has recently applied and been granted homestead entry for the quarter section. Beeby is actually in Best's employ and was left in charge of his ranche and cattle during Mr.Best's temporary absence in England. Prior to that Beeby was employed by Morgan and Cummings; but for a period of a year,more or less,when Burns and Duggan had the place,Beeby had nothing to do with it. He can no doubt say that he has resided on the place for several years, but you will observe that his residence has not been in the capacity of either owner or claimant; but simply as a hired employee.

We wish to know in the interest of our client,what is the speediest and least expensive method of having Beeby's entry cancelled Mr.Best has now returned to Alberta and intends to sell out his cattle and horses this summer,and,of course,is anxious to realise or get the benefit of his $1700 in improvements on this quarter section. If Beeby's entry were cancelled probably the easiest way out of the difficulty it would be for the department to sell the quarter to Mr.Best at a

If Mr.Beeby fights, I presume, there is nothing to do except going into the Courts and apply to have his entry cancelled and this is not what Mr.Best desires, as he wished to have the matter wound up as soon as possible and with little expense.. The granting of this entry to Beeby is exceedingly unfortunate.

Sir,

Enclos;

Referring to the homestead entry granted to C. Beeby for the S.W.¼ of Section 14, Township 4, Range 29, W.4th M., I beg to hand you copy of a letter addressed to the Superintendent of Mines by Messrs. McCaul & Hart, of Calgary, according to which it would seem that Mr. Beeby misrepresented the true state of affairs as affecting this land. In writing to you on the 1st of March last, stating that there was no objection to granting Mr. Beeby entry, the decision arrived at was on the strength of the statement in your letter of the 22nd February that Mr. West had left the country and returned to England. It now appears, however, that he only went on a visit and is expected to return shortly, if he has not already arrived. He spent a large sum of money in improving the land and Beeby was in his employ and supposed to be looking after his interests.

Under the circumstances you will be good enough to issue notices to Beeby to show cause why his entry should not be cancelled on the ground of misrepresentation of the facts of the case, he having apparently taken the usual affidavit at the time of entry to the effect that there were no improvements on the place.

Sir:-

I beg to acknowledge the receipt of your letter of the 23rd ultimo No. 427846. Ref. 410034. and to say that on the 28th. of Sept. 96. I wrote Mr. Best informing him that I was authorized to grant him an entry for the S. W.¼ Sec: 14 - 4 - 29. W. 4th. M I never received any reply to my letter. On the 30th. of June. I received a letter from the Commissioner No. 378543. Ref. 375,686 instructing me to hold the quarter section for Charles Kube, (evidently intended for Beebe,) provided I knew of no reason to the contrary. On the 3rd. of February I wrote to Beebe, copy of which letter is herewith enclosed. I also enclose Beebe's letter in reply. On the 22nd. of Feby. I wrote the Commissioner in further reference to the matter. Copy of my letter is enclosed also copy of the Commissioners reply. I also enclose copy of answers to questions from Beebe to Mr. Bowman, who was acting as his agent.

On the 7th. of June last I received a letter from the Commissioner instructing me to issue notices to Beebe, to show cause why his entry should not be cancelled. On the 8th. ultimo I sent Beebe the usual form on which to file a defence, accompanied by a letter, copy of which I enclose.

To-day Mr. Eddy handed me the enclosed letter from Beebe, File No. 13811. and I informed him,(Mr. Eddy,) that I would write Mr. Beebe fully so soon as a decision in the matter was arrived at.

This is the whole history of the case. Beebe states in his last letter that he is leaving the country, he has evidently acted dishonestly throughout, and obtained the entry through fraud and I would

In answering question No. 25. be good enough to state fully what improvements were on this land when you obtained entry therefor, by whom made, and to whom they belonged.

Sir,

I beg to enclose herewith the report of Sub-Agent Cox, on the S. W.¼. Sec. 14.- 4.- 29. W. 4th. M. See your letter of the 28th. ult. File.410034.

quarter section including the improvements, or to put the whole property up at public auction.

It would seem a great pity to leave these valuable improvements uncared for as they will, without doubt, very quickly be taken away or deteriorate in value. The Agent at Lethbridge mentions that in the last communication received from Mr. Best he gives his address as "Nimrod Club, St. Jawes Street, London, England". He does not give the date. If it is considered necessary to endeavour to communicate with Mr. Best I would suggest the advisability of placing a caretaker in charge of the improvements, and should Mr. Best not be heard from, the suggestion made by Mr. Cox as to the disposal of the property should be considered. Will you please let me have your instructions in the matter.

Memorandum,

I beg to submit for your consideration and instructions the following case;-

Some years ago Mr. A. E. Best is stated to have purchased from Messrs Burns and Duggan the improvements on the S. W. ¼ of 14, 4, 29, West 4th, paying therefore the sum of $600, and that during the year 1896 Mr. Best expended over $1100 in additional improvements. The Agent was authorized to grant Mr. Best a homestead entry for the quarter section, but this privilege was not taken advantage of, and Mr. Best left for England early in 1897. Some time afterwards Mr. Chas. Beebe applied for and obtained entry for the parter section, and in 1897 the case was brought to the attention of the late Commissioner, complaint having been made that Beebe, who was represented as being the hired servant of Bests, left in charge of the place, had taken advantage of his employer's absence, and by gross misrepresentation of the facts acquired an entry. Accordingly instructions were issued to cancel the entry and give Mr. best the right of securing the land. Although it

James A. Smart, Esq.,
Deputy Minister of the Interior,
Ottawa.

it was reported Mr. Best had gone to England for a temporary visit he has not yet returned and applications have been received for the quarter section. One of these, Mr. R. J. Christie, values the improvements at $450. The Local Agent at Lethbridge reported as follows;-

"I am not aware of Mr. Best's intentions regarding the W. W. ¼ of 14. 4. 29. West 4th but as I have been informed "that he has disposed of his cattle and other interests "in this country I am inclined to believe that he does not intend to return to it." Whatever other interests Mr. Best may have disposed of he has not, so far as the Department is aware, made any disposition of the improvements on the quarter section in question. A report dated the 14th instant from Sub-Agent Cox of Pincher Creek describes and values the improvements as follows;-

Two dwelling houses in good order-- ------- $700.
Shop and harness room in one building,------ 125.
Cattle shed of lumber---------- 150.
Cattle shed (log)---------- 15.
Unfinished shed (log)---------- 50.
Stables---------- 100.
Corralls---------- 100.
Fencing---------- 100.
Total $1175.

Mr Cox states the improvements are located on a very pretty site, and he suggests in the event of the Department making no other disposition of them that it would be well to call for tenders for the purchase of the quarter

I found it almost impossible to place any reliable man in charge at a low expense, I have given O'Neil permission to use the place, stack hay, keep his cow & poultry &c. so long as no material damage or depreciation accrues thereby. He desired to be guaranteed the use thereof until spring, not wishing to be under the expense & necessity of removing during winter. but none was given him. I promised to make the foregoing representation to the Dept for consideration. To place any settler in the immediate neighborhood in charge would not have ensured the necessary close and continuous watch on these improvements - it requires some one to reside upon the place to protect it. Already since my visit of inspection on the 13th July, one window sash has been stolen, 5 panes of glass broken and shingles

Sir,

Referring to your letter of the 24th ultimo, file 11201, addressed to R. J. Christie, I am directed by the Commissioner to enquire whether you consider the offer of $150 for the buildings on the S. These buildings are likely to deteriorate in value very quickly if not disposed of, and thus the Department is at present under expense in having them taken care of. Sir,

In reply to your letter of the 21st. inst., F.41 4. I beg to say that in view of the fact that Mr. Hunt claims there were improvements on the S.W.¼.Sec.14.- 4.-29, W.4th.M. to the value of $,500.00 when he took possession of the land, and that he afterwards, in 1898, expended some $,100.00 in additional improvements, I do not consider Mr. Christie's offer of $.450.00 a fairly reasonable one. I am sure that Sub-Agent Cox took a careful inspection of these improvements, and that his valuation is not too high. There is a rapidly increasing demand for lands in this district, and this land in question is in a desirable section. I am very much mistaken if the improvements in question can not be disposed of next spring, for, at least, two times of the valuation placed thereon by Sub-Agent Cox.

Office of the
Superintendent of Mines.
Calgary, 10th August, 1910.

Sir,

Re-writing the application of George Thomas Perry to acquire by homestead and purchase a portion of Sec. 18 T. 29 W. 4 as stated in his affidavit made before Mr. D.T.S. Wilkins on the 11th July '09 I would state.

1. The application to homestead the S.E. ¼ of 18 cannot be entertained it being [illegible] for stock watering & outlet purposes. It will be necessary to reserve building or conveyance of coal from any part of S.E. ¼, all are on the S.E. ¼.

2. The area of the portion of the S.E. ¼ of the above Section & Township is 140.0 acres.

3. There is a spring on the north side of the S.E. ¼ which could be made [illegible] over if desired and it is not desirable that any settler should occupy both banks of a stream of this nature. Therefore 140 acres or as nearly as possible can be given in addition to the portion of the S.E. ¼ Section lying south of the Stream the easterly three eighths (3/8) of the S.W. ¼ Sec'd & easterly three eighths (3/8) of the N.W. ¼ Sec'd & all that part of S.E. ¼ Sec'd 3 lying north of said stream, containing in all 140 1/2 acres, more or less to be given accordingly.

4. Kindly have copies of this made for C.O. and the Commissioner for record & also return this file re-adding the N.W. ¼ of W. 4 and advise me of the decision arrived at.

I am, Sir,
Your obedient servant,
(Sgd) Wm. Pearce,

Rec'd Sept 7/96

Sir, Regarding the application of George Thomas Berry to acquire as homestead and purchase a portion of Sec 18. 4. 28 W4th as stated in his affidavit made before Mr D. J. S. Hilkins on the 11th July 96 I would State

1/ No application to Homestead the N.E. 1/4 of 18 cannot be entertained it having been reserved for Stock watering & other purposes. It will be observed he has no buildings or improvements of any kind on said N.E. 1/4. all are on the S.E. 1/4.

The area of that portion of the S.E. 1/4 north of the north fork of the Waterton River is 130.00 acres. Now being a squatter on the South Bank no right thereto could be granted Berry & tho if desired and it is not desirable that any settler should occupy both banks of a stream of this nature.

Sir,

I am directed by the Commissioner to say that his attention has been drawn by the Superintendent of Mines to a communication from that officer addressed to yourself on the 10th of August last, in regard to the application of George Thomas Berry to homestead and purchase a portion of Section 18, Township 4, Range 28, W.4.M.

Mr.Pearce points out that he has not been advised of any decision having been arrived at in this case, and he thinks it advisable that it should be disposed of with as little delay as possible. The Commissioner concurs with Mr. Pearce, and will be obliged by having the matter locked into.

James A. Smart,

Deputy Minister of Interior.

Sir:-

I beg to enclose a letter received from Geo. T. Berry of Yarrow Alberta, which seems to be self explanatory. Would you kindly look into the matter and see if you can get the affair settled as Mr. Berry desires, as it seems to be a reasonable request.

Yours,

a homestead entry for that portion of the South East quarter lying north of the River, the easterly three-eighths of legal subdivision 5, and the easterly three-eighths of legal subdivision 8 lying north of the River, containing in all 159.1/2 acres, his claim to the North East quarter being disallowed.

Had Mr. Berry made his improvements on the North East quarter of the Section prior to survey and prior to its reservation for stock watering purposes, his claim to the land in my opinion, would have been a very strong one, but as he did not as a matter of fact make any improvements whatever on the quarter-section, I do not see that he has just ground for complaining when he is permitted to acquire the land on which he actually squatted. In view of these facts, I must admit that I cannot see my way clear to recommending that the decision already arrived at in this case be re-considered.

Yours truly,

Deputy Minister.

Ref.410035:

Ottawa, 24th February, 1898.

Dear Mr. Oliver,

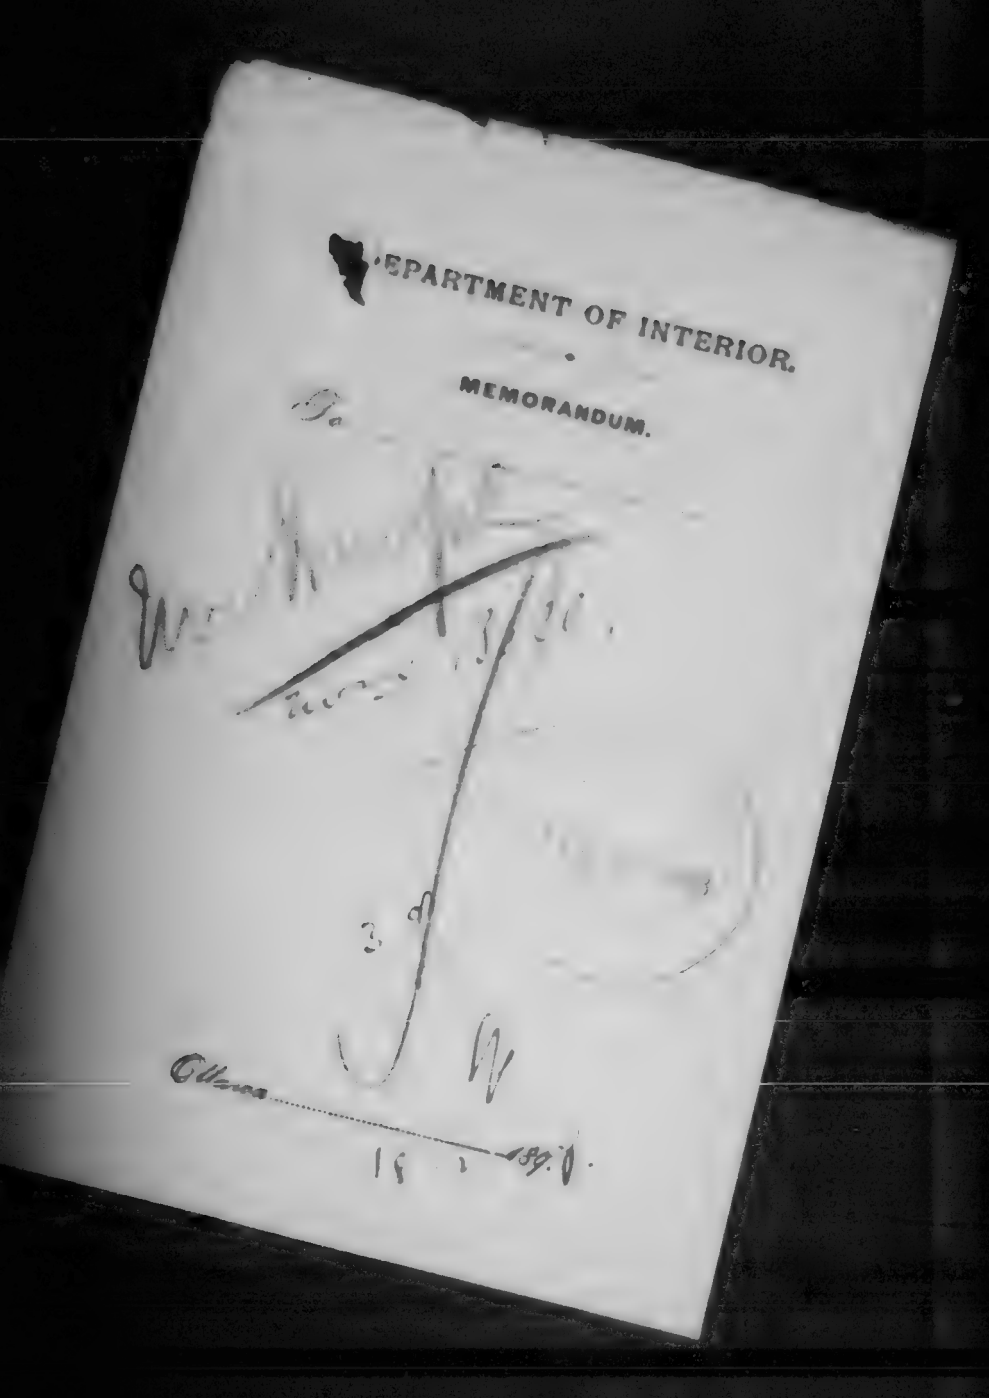

I am in receipt of your letter of the 21st instant, covering one from Mr. George T. Berry, of Yarrow, Alta., with regard to his desire to purchase the portion of the South East quarter of Section 18, Township 4, Range 28, West of the 4th Meridian, lying north of the north fork of Waterton River, and to homestead the North East quarter of the same Section. On looking into this matter, I find that Mr. Berry squatted on this land in the Spring of 1892. According to his own declaration, taken before Mr. Wilkins, D.L.S., in the summer of 1895, Mr. Berry had at that date made all his improvements on the South East quarter of the Section, which he then claimed as his preemption, stating that he wished to acquire the North East quarter, on which he had no improvements whatever, as his homestead. Before this date, namely, on the 21st of May, 1895, the latter quarter-section had been reserved for stock watering purposes, so that when his claim was considered by the Department it was decided to allow him

Dear Sir,

In reply to your favor of the 23rd ult.
File No 41033 re N.E. 1/4 of Section 15 Township
Range 28 West of the 4th M. I beg to say that
I consider I have a prior claim to this land
owing to the following circumstances.

In 1893 I Homesteaded the S.E. 1/4 of this
Section, finding there was no land on my
Homestead suitable for farming purposes; I
broke, fenced & resided a piece of about 20 acres
& the N.E 1/4, with the intention of preempting
said quarter at a later date, when circumstances
would permit of my doing so. Some time after then
when I intended preempting this 1/4, I learned that
same had been reserved as a water-right, & that I
could not preempt.

Under these conditions I feel that I have a prior claim
& that I ought to be able to preempt same at the price land
was then offered at, as I should have bought then, had it
been possible & only it.

Will you kindly advise me regarding this & very much oblige

Yours truly Geo. J. Berry.

Sir,

See yours of the 14th instant, Ref.410032. The closing sentence is ;-""Should the Company be willing to concede the request of the Department, no portion of the land, of course, can be allowed to be used as a drift-way for stock but will have to be given to Mr.Christie as a homestead and sale ."

Why cannot the Company relinquish land that is to be used as a driftway for stock? It would occur to most peoplethat the doctrines enunciated are peculiar and without reasons given inexplicable. The request has been made in other cases and I think has been acceded to. In fact, I can conceive stronger reasons for requesting it to do so than for either homestead or sale. For homestead, the Company might reply that the settlers within their grant were reasonably protected. If they desire to purchase, it can be done at low rate. I can see no reason for asking the Company to relinquish for the purpose of making a sale. A request for a drift-way could be based on public advantage in which the interest of the company would participate as well as others. If Christie obtains L.S.2,3,6 and 7 of Sec.13--4--29 W.4 as a homestead he received one half mile of stream on both banks. If 4 and 5 are sold him he receives one quarter- ile both banks additional. He has no improvements on 1 and 8, therefore I can conceive no reason why if the company relinquishes it it must be sold him; but very strong reasons why it should be reserved as a driftway. If he requires more land

land he can have it without granting him any more water frontage. What is proposed by me to accord him is excessive. He has fenced in upwards of 1½ miles of the creek.

Ref.410032:

Ottawa, 27th April, 1897.

Dear Sir,

Referring further to your letter of the 2nd instant, with regard to the claim of Mr. R.J. Christie, of Yarrow, Alta., to a patent for the South half of Section 15, Township 4, Range 29, West of the 4th Meridian, I find that according to Mr. Christie's own declaration before Mr. Wilkins, D.L.S., who subdivided the Township during the summer of 1895, he squatted upon the half-section in question in August, 1890, broke some 16 acres in 1892 which he has since cropped, built a house which he values at $650.00 and a work shop worth $75.00 and erected corrals and fencing which he estimates to have cost him $350.00. This declaration, I may mention, was only received in the Department in the month of April, 1896, and it was the first intimation that we had of Mr. Christie's claim. Although this Township was only subdivided in 1895, the easterly boundary of Section 15 was surveyed at the time that Mr. Christie first squatted upon the land, and he could therefore have readily ascertained that it was not of the class of lands opened for homesteading, being an odd-numbered section.

I

Frank Oliver, Esq., M.P.,
House of Commons,
Ottawa.

I find, however, that on the 8th July, 1893, in the absence of any knowledge whatever at that time of Mr. Christie's occupation, the whole of Section 13 was granted to the Calgary and Edmonton Railway Company as part of their land grant.

In the month of August last, Mr. Pearce, Superintendent of Mines, made a report upon this case, in which I find he recommended that if it be decided to grant Mr. Christie a [illegible] entry he would recommend that he be given local subdivisions 1, 2, 3 and 7 as a homestead and [illegible] as a sale. local subdivisions 1 and 8 being reserved as a [illegible] for stock. The Department, therefore communicated with the Company with a view of obtaining a release to the Crown and thus enabling the [illegible] entry to Mr. Christie, but this the Company have refused to do on the ground that their Inspector had reported upon the land in September, 1896, and did not find any settlement upon it.

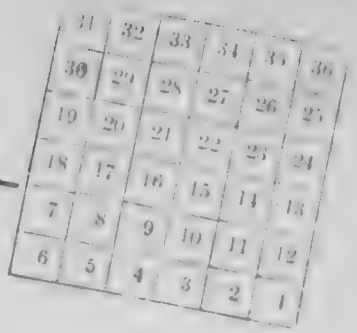

[illegible] I would be very glad to [illegible] in my power to assist Mr. Christie in this matter, I am afraid [illegible] the law is [illegible] the Department it [illegible] very difficult to meet his views. However, there may [illegible] the case which [illegible] desire to [illegible] and until [illegible] further dis- [illegible] the subject with the Minister, [illegible] remain in abeyance.

Yours truly,

1st As the Eastern boundary of this section was surveyed at the time Chester settled on this he could readily have ascertained that he was squatting on lands not intended for homesteading purposes. I would recommend his request be granted if however it is decided to grant him a homestead entry as S.E.¼ of this section have been recommended to be reserved as a driftway for stock, grant him entry to S.E.¼ 2, 3, 6 & 7 and Sec. Hom. S.E.¼ 1, 4, 20, W 4. The price of lands at date he settled Aug 1st 96 was $2.50 per acre.

For reasons stated in mine regarding the W½ 10, 4, 20 W 4 I kindly have copies of these made & send Co and a sketch and advise me of action taken.

I observe you ask this file to be returned for action.

Mr Evans also in his letter of 22nd last (Solicitors file 362/80) says that this is one of the cases pending in which a principle is involved similar to that affecting the Lusk case. In that matter the Deputy treated Pat Lusk's application for outlay to protect an odd Section when which he applied before outlay - be granted - and it would appear as if this case of Lusk's succeeded on equally good merits for favourable consideration.

The Deputy has also treated Pat each case of this nature - awaiting on an odd Section before Survey, &c - should be treated on its merits, and that no formal ruling, such as Evans appears to ask for - can be issued. Speaking generally, he says: He views this by the circumstances in regard to each case as referred in his letter to Mr Evans of 24th July 1880. (Lusk file 362,780) namely:

We beg to acknowledge receipt of your favour of the last inst., file 4100.C, informing us that Robert James Christie is a squatter on the above mentioned land and has made application for entry for Pre-emption purchase, and asking us to relinquish our claim to the land and accept another ½ section in lieu thereof. We presume by this that the Department would give us in exchange an Even-numbered ½ Section and shall be glad to utilize the Department if we can. In connection with the exchange however, we would like to know why Mr. Christie squatted on the land. The Unappealed Township Plat which was put on sale the other day, is dated Dec'r 16. Our Examiner's report which is dated September'90, does not show any squatter on the land. If Mr. Christie has occupied the land since the date that our Examiner visited it we hardly think he should be entitled to any consideration from the Government. We shall be glad to hear from you on this point.

Why cannot the company relinquish land that is to be used as a driftway for stock ? It would occur to most people that the doctrines enunciated are peculiar and without reasons given inexplicable. The request has been made and I think, has been acceded to. In fact, I can conceive stronger reasons for requesting it to do so, than for either homestead or sale. For homestead, the company might reply that the settlers within their grant were reasonably protected. If they desire to purchase, it can be done at low rate. I can see no reason for asking the company to relinquish for the purpose of making a sale. A request for a drift way could be based on public advantage in which the interest of the company would participate as well as others. If Christie obtains L.S.2,3,6 & 7 as a homestead, he receives

We shall be glad to know what portion Mr.Pearce recommends being held for this purpose and we will endeavor, if possible, to meet his views.

You will notice that Mr.Christie claims to have squatted on the land in August 1900 and that our Inspector, whose report is dated September of the same year, does not mention any squatter on the land. It seems to us that as Township lines [illegible] surveyed Mr.Christie was in a position to ascertain what section he was locating on and we do not think therefore that his claim should be entertained. While we would like to oblige the Government, taking into consideration the difficulty we are having in securing the balance of our Land Grant, we must, unless there are some very exceptional circumstances of which we have not been advised, decline to relinquish our claim to the land,

Memorandum:-

In reply to your memorandum of 7th instant re the matter of the application of Mr. Robert J. Christie to be allowed a patent for the land he is now in occupation of, being the South half of Section 13, Township 4, Range 29 West of the 4th Meridian; I beg to say that from evidence upon the fyle of papers relating to Mr. Christie's application, it would appear that he squatted upon this half section during August, 1890.

Mr. Pearce in August, 1896 made a report upon this case, but would not recommend that Christie be allowed entry. He went on to say that should it be decided to grant him homestead entry, he would advise that a certain portion of land had been recommended to be reserved as a drift-way for stock, not be given an entry to L.S.D. 2, 3, 6 and 7, and call him L.S.D. 4 and 5. The land had, however, on the 8th July, 1893, been granted to the Calgary & Edmonton Railway Company as a portion of its land grant. This Company was communicated with in the direction of giving release to the Crown so that entry might be given to Christie. This the Company refused to entertain, saying that their Inspector had reported upon the land in September of the same year, and did not find any settler living upon it. Mr. Christie is entitled to make a second entry.

Dear Sir:-

In reply to yours of the 17th., reference 41003Z, regarding claim of E. J. Christie, of Barrow, Alberta, I beg to say that the point appears to be the alleged prior rights of the Calgary and Edmonton Railway Company. This point I wish to follow up in your department with your permission.

The Calgary & Edmonton Railway Co., decline to pay School taxes on the lands which are supposed to have been granted to them on the ground that the title has not yet passed to them. I desire to know whether their contention is correct or not, If the title has passed, then they must pay School taxes If the title has not passed the Government is certainly in a position to protect Mr. Christie or any other settler; and in the interests of settlement I am bound to demand that protection in the fullest extent. Regarding the suggestion of Mr. Pierce that only part of the half section be allowed Mr. Christie, the balance being reserved as a drift way for stock.

42640

House of Commons

-2-

I have nothing to say, except, that this suggestion is a sample of the methods adopted by Mr. Pierce during a number of years past to balk settlement in the ranching country; in which I hope he will not be supported by the present administeration. My point is that if the Government has seen fit to make a reservation of un-occupied lands for drift ways or watering purposes, that reserve must be respected; but; if a settler has entered into occupation to lands to which he would other-wise be entitled, I beg to say that I consider his rights should be respected. I would like to get a reply from the department as to the two points which I have raised. In the mean time I am forwarding your letter to Mr. Christie for his information and reply.

In the matter proposed from Mr. Frank Oliver, M. P., in regard to my remarks in the last issue of the Calgary & Edmonton Railway Company's claim to pay school taxes on lands held by them as part of their subsidy from the Crown. In reply to this I may say that I have not yet had time to look into the matter, but in this case, have been advised by the Department of Justice that the Company are not liable for taxation. I do not think that any company should be called upon to pay taxes on their lands, as I look upon it as very unfair. In the United States I have known of instances where the Government has given away large tracts of land to railway companies, and in every instance the lands have been exempt from taxation. I am not prepared to say whether the Government will take any action in the matter or not, but will look into it and if any steps are taken, will communicate with the interested parties personally.

I beg to call your attention to the statements by Mr. Christie as to the condition of the survey lines in the township where he is settling, and to the fact that we must be aware, it has been surveyed, as lines and posts be disappeared; indeed, I do not know that the Government could be entitled to hold Mr. Christie responsible for all losses even if the lines and stakes had not disappeared. The obstacle to Mr. Malcolm getting his patent as stated in the departmental letter is, 1st that part of it was required as a drift way for stock, and second that it belongs to the Calgary & Edmonton Railway Co. In regard to the first I protest as emphatically as it is possible for me to do against the removal of land on which a home-steader is entitled after he has become entitled to it, whether legally or equably as to the right of the Calgary and Edmonton Railway Co to the land. We beg to acknowledge receipt of your favor of the 2nd Inst,Ref. 410032 and in reply to say that we have made further enquiry into this matter and regret that we cannot advise the Calgary & Edmonton Land Company to give up their claim to the S.½.13-4-29-4th. We find that at the time Mr.Christie squatted on the Land the Township out-lines had been run and there would therefore be two posts at corners of this ½ Section,viz,the South East and North East,and he should have had no difficulty in locating the land especially as he is an old resident of the country,was no doubt familiar with land matters,as we find he homesteaded the S.W.¼.6-9-26-4th in 1887. And though this entry was cancelled in 1889 and the property afterwards sold to a Mr.Maunsell we are led to believe that Mr.Christie made some money out of the transaction. In any case we cannot see what claim Mr.Christie has to a pre-emption,pre-emption privileges having been discontinued on the 1st January 1890.

As you are aware,a portion of this land was wanted by the Govern-

CERTIFIED Copy of a Report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor General in Council on the 27th June, 1890.

P. C. No. 1655.

On a Report dated 23rd June, 1890, from the Minister of the Interior, stating that it is expedient in the public interest that the terms and conditions under which a free grant of Dominion Lands is to be made to the Calgary and Edmonton Railway Company should be amended.

The Minister therefore recommends that the Orders in Council of the 5th of May and the 22nd of May, 1890, providing for such grant, be cancelled and the following substituted therefor, namely:

That the sanction of Parliament having been obtained at its last Session, a free grant of Dominion Lands be made to the "Calgary and Edmonton Railway Company" at the usual rate of 6,400 acres per mile of the line from Calgary to a point on the North Saskatchewan at or near Edmonton and from Calgary southerly to the International Boundary, the grant to be subject to the following terms and conditions, viz.:

1. That the location, gauge and mileage of the railway shall be according to the contract and specifications furnished by the Department of Railways.

2. That the grant to the Company shall be made up out of the unoccupied and unclaimed odd-numbered sections at the disposal of the Government, or, if so agreed upon between the Company and the Government, out of alternate townships (exclusive of School and Hudson's Bay Company's sections) within 22 miles of the line of railway on each side thereof, in so far as practicable without interfering with any previous grants or reserves.

3. That any deficiency in the area shall be made up out of any available lands in the North-West Territories in the discretion of the Governor General in Council.

4. That the Company shall reimburse to the Government the cost of the survey of the land and incidental expenses, the same being hereby fixed at ten cents per acre.

5. That each *bonâ fide* settler found to be on the 1st of July, 1890, in occupation of land granted to the Company, the Minister of the Interior being the judge in the event of any dispute as to the *bonâ fides* of such settler, shall have the right to retain the land occupied by him to an extent not exceeding 320 acres, on paying the Company therefor, at a rate not exceeding in any case $2.50 per acre, ¼ in cash and ¼ in each of the three succeeding years, with interest on the unpaid balances, at a rate not exceeding 6 per cent. per annum.

To the Honourable

The Minister of the Interior

6. That

6. That the Company shall complete, adequately equip and have running, to the satisfaction of the Government, 100 miles of their railway northerly from the Town of Calgary by the 1st of November, 1891, and shall complete the railway to a point on the North Saskatchewan River at or near Edmonton within two years thereafter: and with respect to that portion of the line between Calgary and the International Boundary, the first fifty miles southerly from Calgary shall be completed by the 1st of November, 1891; the second forty miles by the 1st of November, 1892; and to a point on the Old Man's River by the 1st of November, 1893; and the remainder of the line to the International Boundary shall be completed by a date to be fixed by the Governor in Council.

7. That the first grant at the rate of 6,400 acres per mile shall be made to the Company on the completion to the satisfaction of the Government of the first fifty miles of the railway, and after that the grant shall be made on the completion of each section of ten miles. Provided, however, that when the railway has been completed to the satisfaction of the Government to the points on the North Saskatchewan and the Old Man's River, respectively, as provided in the next preceding paragraph, the Company shall be entitled to the balance of the land grant according to the actual mileage constructed.

8. That, should the Company make default with respect to any of the provisions of Clause 6, the lands to which they would have been entitled, but which may be unearned at the time they make such default, shall be absolutely forfeited and all claim to the same on the part of the Company shall be void.

The Committee submit the above recommendation for Your Excellency's approval.

felt that his claim was deserving of special consideration, and communication was therefore entered into with the Calgary and Edmonton Railway Company for the purpose of securing them, if possible, to accept other lands, of equal value, in lieu of the one claimed by Mr. Christie, but the Company have so far declined to entertain the proposal of the Department, their contention being that their Inspector had reported upon the land in September, 1890, but did not find any settlement on it. [illegible] have been slow to accept the proposal made in this matter, for to deprive Mr. Christie of [illegible] after so many years of labour and expense would certainly appear a very hardship to him.

Under the circumstances, and especially in view of the fact that Mr. Christie would not have had any knowledge of the decision of the Privy Council of the 27th of June, 1890, declaring the invalidity of [illegible] Company's land grant [illegible] first located in [illegible]-Section [illegible], Township [illegible], Range [illegible], that the Order in Council of [illegible] July, 1891, [illegible], that he be [illegible] Lees [illegible] question [illegible] thereof [illegible] self.

Minister of the Interior.

it was only after the Township had been subdivided in 1895 that he discovered that his improvements had been made on an odd-numbered section.

The provisions of the Dominion Lands Act under which the rights of settlers squatting before survey are protected apply indifferently to odd and even-numbered sections, but in the present instance it would appear that on the 17th of June, 1890, an Order in Council was passed under the terms of which all the unoccupied even-numbered sections at the disposal of the Government within twenty-two miles on each side of the line of the [illegible] Railway were designated for the selection of the Saskatchewan Land Grant. This Order in Council provided, among other things, that each bona fide settler found residing on the 1st of July, 1890, in occupation of land [illegible] the Company, shall have the right to retain [illegible] to the extent not exceeding 320 acres, on paying to the Company therefor at a rate not exceeding $2.50 per acre. The odd-numbered sections in the Township in question [illegible] Railway were, however, withheld from the Company by Order in Council dated Oct. 1883. Some of these odd-numbered sections were [illegible] to the Railway Company to [illegible], including the half-section [illegible]. While, [illegible] many of them have [illegible] patents.

It will be observed that Mr. Christie's first occupation of the land in question was only one month short of the limit fixed by the Order in Council of the 27th of June, 1890, and in view of the fact that he had located on the half-section in good faith and had continued to improve the same and to erect valuable buildings thereon with the firm belief that he had settled on an even-numbered section, it was

TO HIS EXCELLENCY

THE GOVERNOR-GENERAL IN COUNCIL:-

The undersigned has the honour to report that in the month of August, 1890, Mr. Robert James Christie, of Farrow, Alberta, squatted upon the South half of Section 13, Township 4, Range 22, West of the 4th Meridian, in advance of the Survey. According to his declaration, taken before the Surveyor who subdivided this Township in the summer of 1896, Mr. Christie has been in continuous residence upon this half-section since the month of August, 1890, up to the present time, with the exception of a few months during the years 1892, 1893, when he was compelled to live temporarily with a brother accidentally destroyed by fire. In 1895, Mr. Christie increased his area of cultivated land, and materially improved his house, from year to year until it has to-day over three hundred and twenty-five acres under crop. Besides other valuable improvements, Mr. Christie has placed upon the land, valued at $40.00, a quarter of a mile of fencing, valued at $40.00, and intends to continue to make it his home. It should be explained also that at the time Mr. Christie squatted upon his land the outlines of the Township in which it is situated had already been run, and he represents that owing to the obliteration of the survey marks, he inadvertently squatted upon a portion of Section 13 instead of Section 12, which he intended to do, and it

Gentlemen,

I beg to advise you that it is the intention of the Minister of the Interior to grant a homestead patent to Mr. Robert James Christie, of Yarrow, Alberta, for the South half of Section 17, Township 1, Range 29, West of the Second Meridian. According to the evidence submitted in the Department in this case, and from Mr. Christie's own statement before the surveyor who subdivided the township, it has been ascertained that Mr. Christie first entered upon the land in question in the fall of 1894, and that he has resided upon it ever since. Under the circumstances of the case, it is held that the time during which he was absent from the land, in order to earn a livelihood, cannot be counted against him, and that he has a valid claim to the land. As the survey of the township in which the land is situated is not completed, the patent cannot issue at present, but it is hoped that it will be ready for issue in the course of this year.

Dear Sir,

As you are probably aware, it has been determined, notwithstanding the grant to the Calgary & Edmonton Railway Company of the South half of section 12, Township 4, Range 20 West of the 4th Meridian as a portion of that Company's land subsidy, to allow you an entry for the portion upon which your improvements are situated, which is I believe the South East quarter. An Order in Council has lately passed excluding the grant to the said Company the half section in question, and if you will present yourself before the Agent of Dominion Lands at Lethbridge, and make the necessary affirmation, that Officer will grant you entry for the quarter section mentioned; and as no doubt you are entitled to the patent you should at once make application therefor. When making entry you might at the same time make your first payment on the South East quarter at the rate of $2.50 per acre on 160 acres, which amounts to $400, the first instalment amounting to $100. The balance will be payable in three equal annual instalments with interest at 6% per annum.

Dear Mr. Burgess,

In reply to yours of the 10th, the Quirk vase. There are several cases now before you for ruling, in which the principle is involved. viz. I am in receipt of your letter of the 4th instant Ref.13.0.52. The special sentence is: "would the company be willing to surrender to the Department, a portion of the land if necessary, and be allowed to be used as a drift-way for stock and allow access from the Christie ranch to the Government land to the south."

Before I can answer this question I must know what land that is to be used as a drift-way for stock? It would occur to most people that the question of right or peculiar and pertinent reasons from the company. The request has been made and I will, as far as possible, do so. In fact, I can conceive circumstances where it would be necessary, both for the Company and for the settlers that such land should be reasonably procured. If they desire to purchase, it can be done at low rate. I can see no reason for asking the company to relinquish for the benefit of public use. A request for a drift way could be based on public advantage in which the interest of the company would participate as well as others.
